**Black Girl Magic Beyond the Hashtag Mar 23 2022** Black Girl Magic Beyond the Hashtag poses the question: how does the #BlackGirlMagic political and cultural movement translate outside of social media? The essays in this volume move us beyond the digital realm and reveals how Black girls and women foster community, counter invisibility, engage in restorative acts, and create spaces for freedom in the face of structural oppression.

**R for Political Data Science Jan 27 2020** R for Political Data Science: A Practical Guide is a handbook for political scientists new to R who want to learn the most useful and common ways to interpret and analyze political data. It was written by political scientists, thinking about the many real-world problems faced in their work. The book has 16 chapters and is organized in three sections. The first, on the use of R, is for those users who are learning R or are migrating from another software. The second section, on econometric models, covers OLS, binary and survival models, panel data, and causal inference. The third section is a data science toolbox of some the most useful tools in the discipline: data imputation, fuzzy merge of large datasets, web mining, quantitative text analysis, network analysis, mapping, spatial cluster analysis, and principal component analysis. Key features: Each chapter has the most up-to-date and simple option available for each task, assuming minimal prerequisites and no previous experience in R Makes extensive use of the Tidyverse, the group of packages that has revolutionized the use of R Provides a step-by-step guide that you can replicate using your own data Includes exercises in every chapter for course use or self-study Focuses on practical-based approaches to statistical inference rather than mathematical formulae Supplemented by an R package, including all data As the title suggests, this book is highly applied in nature, and is designed as a toolbox for the reader. It can be used in methods and data science courses, at both the undergraduate and graduate levels. It will be equally useful for a university student pursuing a PhD, political consultants, or a public official, all of whom need to transform their datasets into substantive and easily interpretable conclusions.

Computing and Communications Engineering in Real-Time Application Development Mar 03

**2023 Experts in research, industry, and academia cover recent trends and state-of-the-art solutions in computer and communications engineering, focusing specifically on real-time applications of electronics, communications, computing, and information technology. The volume provides sound theoretical and application-oriented knowledge with a special focus on the development of safety-critical networks and integrated electrical and electronics systems. The volume also features numerous new algorithms that assist in solving computer and communication engineering problems.**

**Disasters 2.0 Dec 20 2021 Emerging social media and so-called Web 2.0 technologies will continue to have a great impact on the practice and application of the emergency management function in every public safety sector. Disasters 2.0: The Application of Social Media Systems for Modern Emergency Management prepares emergency managers and first responders to successfully apply**  
**Exploring Transmedia Journalism in the Digital Age May 25 2022 Since the advent of digitization, the conceptual confusion surrounding the semantic galaxy that comprises the media and journalism universes has increased. Journalism across several media platforms provides rapidly expanding content and audience engagement that assist in enhancing the journalistic experience. Exploring Transmedia Journalism in the Digital Age provides emerging research on multimedia journalism across various platforms and formats using digital technologies. While highlighting topics, such as immersive journalism, nonfictional narratives, and design practice, this book explores the theoretical and critical approaches to journalism through the lens of various technologies and media platforms. This book is an important resource for scholars, graduate and undergraduate students, and media professionals seeking current research on media expansion and participatory journalism.**

**Online Activism in the Middle East Feb 02 2023 Does the internet facilitate social and political change, or even democratization, in the Middle East? Despite existing research on this subject, there is still no consensus on the importance of social media and online platforms, or on how we are to understand their influence. This book provides empirical analysis of the day-to-day use of online platforms by activists in Egypt and Kuwait. The research evaluates the importance of online platforms for effecting change and establishes a specific framework for doing so. Egypt and Kuwait were chosen because, since the mid-2000s, they have been the most prominent Arab countries in terms of online and offline activism. In the context of Kuwait, Jon Nordenson examines the oppositional youth groups who fought for a constitutional, democratic monarchy in the emirate. In Egypt, focus surrounds the groups and organizations working against sexual violence and sexual harassment. Online Activism in the Middle East shows how and why online platforms are used by activists and identifies the crucial features of successful online campaigns. Egypt and Kuwait are revealed to be authoritarian contexts but where the challenges and possibilities faced by activists are quite different. The comparative nature of this research therefore exposes the context-specific usage of online platforms, separating this from the more general features of online activism. Nordenson demonstrates the power of online activism to create an essential 'counterpublic' that can challenge an authoritarian state and enable excluded groups to fight in ways that are far more difficult to suppress than a demonstration.**

***Hashtag Hermione: Wipeout: Girls Can Vlog* 3 Jan 01 2023 Hermione's parents are separating - and although they're trying to deal with everything in the best way possible, it's difficult for Hermione not knowing who she'll end up living with, or where her home will be. At least she's got the school skiing trip to France to look forward to for a break from all the stress of being at home!The Girls Can Vlog gang are all excited - vlogging about what to pack and how to look good and stay safe on the slopes. Unfortunately for them, Dakota (the prettiest and meanest girl in**

school) is also coming on the trip, and she's planning to do everything she can to cause trouble. Will the Girls Can Vlog holiday fun be over as soon as it's begun? An inspirational story about the power of vlogging - complete with tips for making your own vlogs!

**Hashtag Jurisprudence Nov 18 2021** This thoroughly engaging book uses empirical analysis to illustrate that the response of individuals to global terror events, via social media, provokes an opportunity to interpret the ways in which individuals view their place in the world and their relation to law and justice. It is through analysing these responses that Cassandra Sharp demonstrates that a 'hashtag jurisprudence' can be constructed.

***Discovering the Internet: Complete* Jan 09 2021** **DISCOVERING THE INTERNET: COMPLETE CONCEPTS AND TECHNIQUES**, Fifth Edition provides a hands-on introduction to the latest Internet concepts and skills to help students become digitally literate computer users. Societal coverage makes this book unique, and with content on e-business, social media, and technologies of the Internet, students will receive both basic and technical coverage of Internet concepts and skills. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**The Travelers** Feb 19 2022 A pulse-racing international thriller from the New York Times bestselling author of *The Expats* and *The Accident* It's 3:00am. Do you know where your husband is? Meet Will Rhodes: travel writer, recently married, barely solvent, his idealism rapidly giving way to disillusionment and the worry that he's living the wrong life. Then one night, on assignment for the award-winning *Travelers* magazine in the wine region of Argentina, a beautiful woman makes him an offer he can't refuse. Soon Will's bad choices—and dark secrets—take him across Europe, from a chateau in Bordeaux to a midnight raid on a Paris mansion, from a dive bar in Dublin to a mega-yacht in the Mediterranean and an isolated cabin perched on the rugged cliffs of Iceland. As he's drawn further into a tangled web of international intrigue, it becomes clear that nothing about Will Rhodes was ever ordinary, that the network of deception ensnaring him is part of an immense and deadly conspiracy with terrifying global implications—and that the people closest to him may pose the greatest threat of all. It's 3:00am. Your husband has just become a spy.

***Social Media: The Good, the Bad, and the Ugly* Oct 30 2022** This book constitutes the refereed conference proceedings of the 15th IFIP WG 6.11 Conference on e-Business, e-Services and e-Society, I3E 2016, held in Swansea, UK, in September 2016 The 47 full and 17 short papers presented were carefully reviewed and selected from 90 submissions. They are organized in the following topical sections: social media strategy and digital business; digital marketing and customer relationship management; adoption and diffusion; information sharing on social media; impression, trust, and risk management; data acquisition, management and analytics; e-government and civic engagement; e-society and online communities.

**Hashtag Activism Interrogated and Embodied Nov 30 2022** **Hashtag Activism Interrogated and Embodied** analyzes the ways that hashtags repurpose and reclaim societal narratives, considering how these digital interactions carry over into external spaces and are embodied by both participants and spectators alike. A diverse set of contributors from a range of disciplines utilize a variety of methodologies to interrogate the lifespan and trajectories of specific hashtag campaigns, study rhetorical strategies engaged by online communities, and analyze how hashtags are employed for particular purposes. The chapters capture twenty-first-century digital activism unfolding in different social and geopolitical climates. Delving into hashtag activism in various forms (tweets, memes, and personal narratives) and spaces (Twitter, Facebook, and in-person protests), these chapters reveal how participants question and construct online and offline

identities and imagined and actualized communities. They also showcase the complicated ways hashtag activism intersects with consumer, popular, and celebrity cultures. *Hashtag Activism Interrogated and Embodied* calls for broader inclusion in what is considered hashtag activism, such as digital fandom, how hashtags are co-opted for nefarious purposes, the effects of anti-activism, and the role of journalism and the media. It will appeal to a range of disciplines including rhetoric and composition, internet studies, communication studies, media studies, feminist studies, affect studies, cultural studies, technical communication, and sociology. Contributors: Robert Barry, André Brock, Elizabeth Buchanan, Rosemary Clark-Parsons, Gabriel I. Green, Neha Gupta, Jeffrey J. Hall, Kyesha Jennings, Morgan K. Johnson, Salma Kalim, Megan McIntyre, Sean Milligan, Avishek Ray, Sarah Riddick, Stephanie Vie, Erin B. Waggoner, Holly M. Wells, William I. Wolff You can use only one pair of em dashes in a sentence. :(

*Hashtag Authentic* Jun 25 2022 In *Hashtag Authentic*, social media guru Sara Tasker provides tips, advice, and guidance on how to turn your personal Instagram account into a profitable creative outlet. Since setting up her Instagram account (@me\_and\_orla) while on maternity leave in 2013, Sara has become a celebrated influencer and iPhoneographer, and through her calm, atmospheric, and authentic style has garnered legions of followers. Here, Sara presents the lessons she has learned along the way. Sara's nurturing voice and enchanting photography provide guidance on: storytelling, with tips on finding your own visual style and personal niche; making pictures, including composing for Instagram, finding the best light, and getting the most out of your camera phone; archiving your life, with tips organized by themes like Craft & Making, Family & Pets, and Food & Ingredients; and sharing your world, detailing the keys to Instagram success and beyond. *Hashtag Authentic* is both an inspiring manual and an interactive tool for finding an online voice, growing a tribe, and becoming an influencer.

*Social Computing, Behavioral-Cultural Modeling, and Prediction* Mar 11 2021 This book constitutes the refereed proceedings of the 8th International Conference on Social Computing, Behavioral-Cultural Modeling, and Prediction, SBP 2015, held in Washington, DC, USA, in March/April 2015. The 24 full papers presented together with 36 poster papers were carefully reviewed and selected from 118 submissions. The goal of the conference was to advance our understanding of human behavior through the development and application of mathematical, computational, statistical, simulation, predictive and other models that provide fundamental insights into factors contributing to human socio-cultural dynamics. The topical areas addressed by the papers are social and behavioral sciences, health sciences, engineering, computer and information science.

*Making it as a Teacher* Jan 21 2022 Teaching is a delightfully rewarding, wonderfully enlightening and diverse career. Yet, at present, teacher recruitment and retention are in crisis, with some of the most at risk of leaving the profession being those in their early years of teaching. *Making it as a Teacher* offers a variety of tips, anecdotes, real-life examples and practical advice to help new teachers survive and thrive through the first 5 years of teaching, from the first-hand experiences of a teacher and middle leader. Divided into thematic sections, *Making It, Surviving and Thriving*, the book explores the issues and challenges teachers may face, including: Lesson planning, marking and feedback Behaviour and classroom management Work-life balance Progression, CPD and networking With the voices of teaching professionals woven throughout, this is essential reading for new teachers, those undertaking initial teacher training, QT mentors and other teaching staff that support new teachers in the early stages of their career.

*Web Technologies and Applications* Sep 16 2021 This book constitutes the refereed proceedings of the 16th Asia-Pacific Conference APWeb 2014 held in Changsha, China, in September 2014.

The 34 full papers and 23 short papers presented were carefully reviewed and selected from 134 submissions. The papers address research, development and advanced applications of large-scale data management, web and search technologies, and information processing.

***Networked Feminisms*** Jun 01 2020 The essays in this collection outline how feminists employ a variety of digital practices and tools to create spaces of solidarity, archive important feminist digital culture work, and offer blueprints for future feminist action.

**Hashtag Leaves Qwertyville** Oct 18 2021 A fun and humorous tale of Hashtag Keyes of Qwertyville (the actual Hashtag #3 key within the typical computer keyboard known as Qwerty) along with his family and friends (also characters within the typical keyboard) and how they help him to reach his dream of becoming famous in Hollywood.

***Web Information Systems Engineering – WISE 2020*** Jul 15 2021 This book constitutes the proceedings of the 21st International Conference on Web Information Systems Engineering, WISE 2020, held in Amsterdam, The Netherlands, in October 2020. The 81 full papers presented were carefully reviewed and selected from 190 submissions. The papers are organized in the following topical sections: Part I: network embedding; graph neural network; social network; graph query; knowledge graph and entity linkage; spatial temporal data analysis; and service computing and cloud computing Part II: information extraction; text mining; security and privacy; recommender system; database system and workflow; and data mining and applications

**The Language Situation in China** Dec 28 2019 China, with the world's largest population, numerous ethnic groups and vast geographical space, is also rich in languages. Since 2006, China's State Language Commission has been publishing annual reports on what is called "language life" in China. These reports cover language policy and planning initiatives at the national, provincial and local levels, new trends in language use in a variety of social domains, and major events concerning languages in mainland China, Hong Kong, Macau and Taiwan. Now for the first time, these reports are available in English for anyone interested in Chinese language and linguistics, China's language, education and social policies, as well as everyday language use among the ordinary people in China. The invaluable data contained in these reports provide an essential reference to researchers, professionals, policy makers, and China watchers.

***Learning and Collaboration Technologies*** Aug 04 2020 The LNCS volume 9192 constitutes the refereed proceedings of the Second International Conference on Learning and Collaboration Technologies, LCT 2015, held as part of the 17th International Conference on Human-Computer Interaction, HCI 2015, in Los Angeles, CA, USA in August 2015, jointly with 15 other thematically similar conferences. The total of 1462 papers and 246 posters presented at the HCI 2015 conferences were carefully reviewed and selected from 4843 submissions. These papers address addressing the following major topics: technology-enhanced learning, adaptive and personalised learning and assessment, virtual worlds and virtual agents for learning, collaboration and Learning Serious Games and ICT in education.

***Digital Activism in the Social Media Era*** Sep 28 2022 This book probes the vitality, potentiality and ability of new communication and technological changes to drive online-based civil action across Africa. In a continent booming with mobile innovation and a plethora of social networking sites, the Internet is considered a powerful platform used by pro-democracy activists to negotiate and sometimes push for reform-based political and social changes in Africa. The book discusses and theorizes digital activism within social and geo-political realms, analysing cases such as the #FeesMustFall and #BringBackOurGirls campaigns in South Africa and Nigeria respectively to question the extent to which they have changed the dynamics of digital activism in sub-Saharan Africa. Comparative case study reflections in eight African countries identify and critique digital

concepts questioning what impact they have had on the civil society. Cases also explore the African LGBT community as a social movement while discussing opportunities and challenges faced by online activists fighting for LGBT equality. Finally, gender-based activists using digital tools to gain attention and facilitate social changes are also appraised.

*Social Media and Election Campaigns* Jul 03 2020 This book aims to further the research in the fields of social media and political communication by moving beyond the hype and avoiding the most eye-catching and spectacular cases. It looks at stable democracies without current political turmoil, small countries as well as large continents, and minor political parties as well as major ones. Investigating emerging practices in the United States, Europe, and Australia, both on national and local levels, enables us to grasp contemporary tendencies across different regions and countries. The book provides empirical insights into the diverse uses of different social media for political communication in different societies. Contributors look at the ways in which novel arenas connect with other channels for political communication, and how politicians as well as citizens in general use social media services. Presenting state-of-the-art methodological approaches, drawing on a combination of qualitative and quantitative analyses, the book brings together an interdisciplinary group of researchers in order to address emerging practices of the mediation of politics, campaign communication, and issues of citizenship and democracy as expressed on social media platforms. This book was originally published as a special issue of *Information, Communication & Society*.

*Hashtag* May 05 2023 *Best Books of 2019-Scholarly Kitchen* *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. Hashtags can silence as well as shout. They originate in the quiet of the archive and the breathless suspense of the control room, and find voice in the roar of rallies in the streets. The #hashtag is a composite creation, with two separate but related design histories: one involving the crosshatch symbol and one about the choice of letters after it. Celebration and criticism of hashtag activism rarely address the hashtag as an object or try to locate its place in the history of writing for machines. Although hashtags tend to be associated with Silicon Valley invention myths or celebrity power users, the story of the hashtag is much longer and more surprising, speaking to how we think about naming, identity, and being human in a non-human world. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

*#HashtagActivism* Oct 06 2020 How marginalized groups use Twitter to advance counter-narratives, preempt political spin, and build diverse networks of dissent. The power of hashtag activism became clear in 2011, when #IranElection served as an organizing tool for Iranians protesting a disputed election and offered a global audience a front-row seat to a nascent revolution. Since then, activists have used a variety of hashtags, including #JusticeForTrayvon, #BlackLivesMatter, #YesAllWomen, and #MeToo to advocate, mobilize, and communicate. In this book, Sarah Jackson, Moya Bailey, and Brooke Foucault Welles explore how and why Twitter has become an important platform for historically disenfranchised populations, including Black Americans, women, and transgender people. They show how marginalized groups, long excluded from elite media spaces, have used Twitter hashtags to advance counternarratives, preempt political spin, and build diverse networks of dissent. The authors describe how such hashtags as #MeToo, #SurvivorPrivilege, and #WhyIStayed have challenged the conventional understanding of gendered violence; examine the voices and narratives of Black feminism enabled by #FastTailedGirls, #YouOKSis, and #SayHerName; and explore the creation and use of #GirlsLikeUs, a network of transgender women. They investigate the digital signatures of the “new civil rights movement”—the online activism, storytelling, and strategy-building that set the

stage for #BlackLivesMatter—and recount the spread of racial justice hashtags after the killing of Michael Brown in Ferguson, Missouri, and other high-profile incidents of killings by police. Finally, they consider hashtag created by allies, including #AllMenCan and #CrimingWhileWhite.

**Applied Physics, System Science and Computers III Jul 27 2022** This book reports on advanced theories and methods in three related fields of research: applied physics, system science and computers. The first part covers applied physics topics, such as lasers and accelerators; fluid dynamics, optics and spectroscopy, among others. It also addresses astrophysics, security, and medical and biological physics. The second part focuses on advances in computers, such as those in the area of social networks, games, internet of things, deep learning models and more. The third part is especially related to systems science, covering swarm intelligence, smart cities, complexity and more. Advances in and application of computer communication, artificial intelligence, data analysis, simulation and modeling are also addressed. The book offers a collection of contributions presented at the 3rd International Conference on Applied Physics, System Science and Computers (APSAC), held in Dubrovnik, Croatia on September 26–28, 2018. Besides presenting new methods, it is also intended to promote collaborations between different communities working on related topics at the interface between physics, computer science and engineering.

**#Player Jun 13 2021** Players gotta play. Hate is like a poison. It contaminates everything. So does doubt. Even though I deny what I overheard, even though I insist it isn't true, the seed of doubt has been planted. I can't help but be tormented with the endless what-if's that have taken over our lives. Romeo and I were happy in love. The future stretched before us brighter than any star in the darkest sky. Now everything is broken. Literally broken. Romeo's entire career is at stake, my entire future is threatened... and my past? It's coming back to haunt me. To haunt us. Romeo says we're in this together and right now the only sure thing is us. But how far can a love so new be pushed? The lengths we will have to go to save each other puts everything at risk. Romeo is a #player but how much of the game can one person play?

**Social Informatics May 13 2021** This book constitutes the proceedings of the Third International Conference on Social Informatics, SocInfo 2011, held in Singapore in October 2011. The 15 full papers, 8 short papers and 13 posters included in this volume were carefully reviewed and selected from 68 full paper and 13 poster submissions. The papers are organized in topical sections named: network analysis; eGovernance and knowledge management; applications of network analysis; community dynamics; case studies; trust, privacy and security; peer-production.

**Hashtag Campaigns during the COVID-19 Pandemic in Malaysia Apr 23 2022** Hashtag campaigns on social media enable users to express their sentiments on various issues and mobilize people to be part of a movement or cause; they have been used effectively by disenfranchised members of society against powerful elites. While some are of the opinion that online campaigns are ineffective due to “slacktivism”, such campaigns can spill over to offline protests, especially if there are strong emotions such as anger, or a sense of injustice, or social deprivation, spurring people on. The earlier hashtag campaigns in Malaysia—#AntaraDuaDarjat (#BetweenTwoStatus) and #DengkiKe (#AreYouJealous)—were expressions of unhappiness over perceived double standards in the enforcement of COVID-19 public safety protocols. Later hashtag campaigns such as #KerajaanGagal (#FailedGovernment), #KerajaanZalim (#CruelGovernment), and #KerajaanPembunuh (#MurdererGovernment) became increasingly negative as public disenchantment grew due to the government’s weak handling of the pandemic and the consequent economic fallout. Public frustration that manifested itself in the #BenderaHitam (#BlackFlag) and #Lawan (#Protest) movements soon transitioned into offline campaigns and protests against

the government. Apart from political hashtag campaigns, there were also welfare movements such as #KitaJagaKita (#WeTakeCareOfOurselves), #BenderaPutih (#WhiteFlag), and #RakyatJagaRakyat (#CitizensTakeCareOfCitizens), which enabled Malaysians to help the less fortunate affected financially by the COVID-19 lockdowns, by rendering food aid and other assistance. A key conclusion of this study is that online hashtag campaigns have served as an early warning of trending public sentiment. They also have the potential to hype up emotions online and subsequently galvanize support for offline campaigns and protests. As #Lawan and #BenderaHitam showed, these can have direct political outcomes.

*Theory of the Hashtag* Feb 07 2021 This is a short book about the most prominent sign of our times. The simple # sign is now used so widely that it is easy to overlook the fundamental effects it has had in the structuring of public debate. With its help, statements are bundled together and discourse is organized and amplified around common buzzwords. This method enables us to navigate more easily the huge volume of online utterances, but it also increases the risk of leveling statements and extinguishing difference, as exemplified by the #MeToo debate. Andreas Bernard traces the young and spectacular career of the humble hashtag. He follows the history of the # sign, documenting its use by Twitter and Instagram, and then examines the most prominent contemporary domains of the sign in socio-political activism and in marketing – two apparently very different fields which are united in their passion for the hashtag. *Theory of the Hashtag* shines a bright light on a small but pervasive feature of our contemporary digital culture and shows how it is surreptitiously shaping the public sphere.

Twitter for Trainers Dec 08 2020 Twitter can help you promote your brand, conduct more efficient training, and share information with your colleagues and potential clients. Use this Infoline to help you get started!

Computational Intelligence in Data Mining Nov 06 2020 This proceeding discuss the latest solutions, scientific findings and methods for solving intriguing problems in the fields of data mining, computational intelligence, big data analytics, and soft computing. This gathers outstanding papers from the fifth International Conference on “Computational Intelligence in Data Mining” (ICCIDM), and offer a “sneak preview” of the strengths and weaknesses of trending applications, together with exciting advances in computational intelligence, data mining, and related fields.

Drive Traffic With Hashtags Mar 30 2020 Hashtags are the sure shot way to stay in the lead. Whenever you post a story make sure to add appropriate hashtags to gain traction. With features like hashtag search prevalent on Instagram, it becomes important to add hashtags to expose your content in front of thousands and millions of viewers. Hashtags are the key to getting your content out to potential target clients or audience If you want to increase your following , hashtags are the easiest way to do that. It is estimated that posts with hashtags create 12.6% more engagement than posts without. Create a hashtag for your brand. Use it on all of your posts and encourage your customers who create user-generated content to use it as well. Next, while it can be tempting to use common hashtags like #love, #happy, and #car, your content seemingly will get lost in a sea of content ,so the main concern here is how to maximize and profit from your hashtag strategy in order to increase engagement with all the potential client online Learn how to create your own unique hashtag to ensure all potential target online audience will make easy discovery of your content easier You can build communities around hashtags and also with a hashtag you can set trends and generate a real buzz. It really isn't difficult to create your own hashtags but the real trick is to create one that will drive engagement with your target audience.

ECSM 2020 8th European Conference on Social Media Sep 04 2020 These proceedings represent

the work of contributors to the 7th European Conference on Social Media (ECSM 2020), supported by UCLan Cyprus, Larnaca on 2-3 July 2020. The Conference Chair is Dr Christos Karpasitis and the Programme Chair is Mrs Christiana Varda, from the University of Central Lancashire - Cyprus (UCLan Cyprus). ECSM is a relatively new, but well-established event on the academic research calendar. Now, in its 7th year, the key aim remains the opportunity for participants to share ideas and meet. The conference was due to be held at UCLan Cyprus, but unfortunately, due to the global Covid-19 pandemic it was moved online to be held as a virtual event. The scope of papers will ensure an interesting conference. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research.

*Data Mining* Aug 16 2021 This book constitutes the refereed proceedings of the 15th Australasian Conference on Data Mining, AusDM 2017, held in Melbourne, VIC, Australia, in August 2017. The 17 revised full papers presented together with 11 research track papers and 6 application track papers were carefully reviewed and selected from 31 submissions. The papers are organized in topical sections on clustering and classification; big data; time series; outlier detection and applications; social media and applications.

*#HashtagActivism* Apr 04 2023 This “well-researched, nuanced” study of the rise of social media activism explores how marginalized groups use Twitter to advance counter-narratives, preempt political spin, and build diverse networks of dissent (Ms.) The power of hashtag activism became clear in 2011, when #IranElection served as an organizing tool for Iranians protesting a disputed election and offered a global audience a front-row seat to a nascent revolution. Since then, activists have used a variety of hashtags, including #JusticeForTrayvon, #BlackLivesMatter, #YesAllWomen, and #MeToo to advocate, mobilize, and communicate. In this book, Sarah Jackson, Moya Bailey, and Brooke Foucault Welles explore how and why Twitter has become an important platform for historically disenfranchised populations, including Black Americans, women, and transgender people. They show how marginalized groups, long excluded from elite media spaces, have used Twitter hashtags to advance counternarratives, preempt political spin, and build diverse networks of dissent. The authors describe how such hashtags as #MeToo, #SurvivorPrivilege, and #WhyIStayed have challenged the conventional understanding of gendered violence; examine the voices and narratives of Black feminism enabled by #FastTailedGirls, #YouOKSis, and #SayHerName; and explore the creation and use of #GirlsLikeUs, a network of transgender women. They investigate the digital signatures of the “new civil rights movement”—the online activism, storytelling, and strategy-building that set the stage for #BlackLivesMatter—and recount the spread of racial justice hashtags after the killing of Michael Brown in Ferguson, Missouri, and other high-profile incidents of killings by police. Finally, they consider hashtag created by allies, including #AllMenCan and #CrimingWhileWhite.

*Web Information Systems Engineering – WISE 2016* Feb 28 2020 This two volume set LNCS 10041 and LNCS 10042 constitutes the proceedings of the 17th International Conference on Web Information Systems Engineering, WISE 2016, held in Shanghai, China, in November 2016. The 39 full papers and 31 short papers presented in these proceedings were carefully reviewed and selected from 233 submissions. The papers cover a wide range of topics such as Social Network Data Analysis; Recommender Systems; Topic Modeling; Data Diversity; Data Similarity; Context-Aware Recommendation; Prediction; Big Data Processing; Cloud Computing; Event Detection; Data Mining; Sentiment Analysis; Ranking in Social Networks; Microblog Data Analysis; Query Processing; Spatial and Temporal Data; Graph Theory; Non-Traditional Environments; and Special Session on Data Quality and Trust in Big Data.

*Hashtag Queer* Apr 11 2021 Still all queer all the time. Work from over two dozen writers. Fiction,

non-fiction, poetry and scripts by & about LGBTQ+.

Tweeted Heresies May 01 2020 Introduction -- 1. Criticising religion -- 2. Ambivalent religiosity -- 3. Criticising religion on Twitter -- 4. Religious disengagements -- 5. Backlash: Takfir campaigns -- 6. Evolution of Saudi religion -- Index.

Interpreting Hashtag Politics Aug 28 2022 Why do policy actors create branded policy ideas like Big Society and does launching them on Twitter extend or curtail their life? This book reveals how policy analysis can adapt in an increasingly mediated to offer interpretive insights into the life and death of policy ideas in an era of hashtag politics.
