Mineral Deposits and Exploration Potential of Nigeria Oct 24 2022 This book furnishes a detailed description of the mineral deposits of metallic, non-metallic, solid energy, gemstones and industrial minerals in Nigeria, West Africa with emphasis on their location, geological setting, mode of occurrence, physical and chemical characteristics, ore reserve estimates and metallogeny. It also provides a geoscientific analysis of the solid mineral sector, mineral production statistics, mining, and potential targets for mineral exploration. There are twenty chapters in the book, divided into five

parts: Part 1 (geological setting), Part 2 (metallic minerals), Part 3 (energy minerals), Part 4 (industrial minerals & gemstones), and Part 5 (metallogeny, mining & exploration).

This book is an invaluable source of information, not only for geology and mining students, but also for practicing geoscientists, exploration and mining professionals and administrators in government and private companies who are interested or involved in economic geology, mineral exploration, and mineral resource development in Nigeria.

The Grand Caliph: Recounting His Story and Glory Feb 28 2023 From the bestselling author of From Zero to Hero comes another brilliant insight from the life of a man who strove to put his past behind him and rise to the pinnacle of greatness. This idea-packed publication shares the untold story of how the Grand Caliph charted paths through vast wilderness. In a simple but thought-provoking style, it brilliantly presents stimulating lessons that offer hope to those who have lost the will to pursue success as a result of roadblocks in life. It also offers powerful strategies to all leaders that aspire or struggle to sustain their achievements. If these ideas could work for this outstanding and often-troubled leader, then they can be easily applied to your own personal situations with success a surety. The content of the book is as rich as its attention-grabbing design.
