Leave Your Soul-Sucking Job Once and for All! But be smart about it. We'll show you how. A few years back, a disgruntled flight attendant got on the plane's public address system, shouted some profanities, and exclaimed "I Quit!" He then grabbed 2 beers from the beverage cart, deployed the emergency evacuation slide, and dramatically exited the plane in style. While it likely felt good in the moment and made a splash on social media, he faced a host of negative consequences, including arrest and a \$10,000 fine. This was certainly a memorable way to quit, but if you're looking for a more fulfilling career and life, it's not the right way to do it. This third book in Mirasee's Business Reimagined series will teach you how to intelligently get out of a job you hate (or just don't love) and transition smoothly into a life with more freedom, money, and fulfillment. With a simple-but-powerful five-step plan and a collection of real-life stories of people who sought their dream jobs by leaving unsatisfying careers, How To Quit Your Job provides everything you need to prepare for your grand exit. We'll get you out of the rut you're in, help you focus on what you want to do, and lead you right up to quitting day. From there, you'll be ready to fly. This essay sheds light on why you quit your job and also elucidates how to properly quit your job. Moreover, how to make money to start financing your life without ever working a traditional job is delineated in this essay. Succumbing to working a traditional job in which someone sells their precious, sacrosanct, finite time for a pittance of revenue which cannot even provide them with sustenance is not only an imprudent and unwise decision, but is also an abysmal choice that can easily keep someone entrapped in property for years to come. Working as a voluntary wage slave as some people like to call it can be a recipe for succumbing to destitution, indigence, poverty, and insurmountable debt since most jobs are eminently low paying and do not provide you with anything close to a sustenance wage, especially at the minimum wage. Employees have ample cause to quit their jobs, beyond the fact that sustaining working a dead end minimum wage job is not only non-conducive to providing the employee with a livable wage, but also eminently undermines their lifetime earnings potential. First and foremost, your life becomes salubrious and fraught with issues when you choose to sustain working a job you detest and disdain working. Not only is it an unfulfilling daily experience to work a dead end job you derive no agency from working, but also renders each and every day a miserable, agonizing, lifeless experience. The cost of being bereft of any iota of happiness you once had does not warrant the immense sacrifice needed to earn a measly minimum wage that cannot even provide you with sustenance. The stress and aggravation induced from working a job that you deem to be a heart wrenching experience to sustain can be detrimental to your health. A job not only egregiously encroaches on your sleep schedule, eating schedule, and causes you to relinquish substantial purview over your sacrosanct time, but can also increase your mortality rate, shorten your telomeres, and comprise ample facets of your health when you are unremittingly succumbing to a state of chronic stress from incessantly working a dreadful job. In other words, the long term ramifications of succumbing to constant chronic stress from working a full time job you detest and despise working with ever fiber in your vessel can be severely dire. While coworkers and managers can be wonderful people to converse with, the irate customers do not always know how to civilly interact with the company's employees nor keep their emotions in check. As a result, the livid customers can unfortunately be very condensing and hostile towards innocuous employees who they needlessly and unconditionally lash out against when they cannot get their way and feel as though they have no recourse options. Another reason that should compel you to quit your job if you have an employee mentality and not an entrepreneurial mindset is that you are not achieving your earnings potential as an employee by remaining at a low paying or minimum wage dead end job. You should parlay your work experiences accrued into building a more robust resume and subsequently strive to attain significantly higher paying positions. You can find job opportunities on job search websites such as Indeed, Career Builder, Monster, SnagAJob, or ZipRecruiter. You can earn attempt to attain a higher paying job through a recruiter. Individuals with an employee mindset should understand the opportunity cost of working a dead end minimum wage job in the long haul and should at least attempt to attain the highest paying job that they are qualified to work. Searching for a higher paying job can be a full time pursuit within itself which is why you may need to quit your job, request a leave of absence, or deplete your sick days to transition away from working a minimum wage job so that you can at least be more apt to sustain yourself in the long haul by attaining a higher paying job. Rather than frittering away sacrosanct time meticulously reflecting upon failed pursuits and trying to rectify specific weaknesses going forward, people should triple down on their strengths to the extent that they take heed of honing in on what they are best at and embracing pursuits that are apt to yield fruitful results in the pending future. For instance, if an adept athlete is unsuccessful at becoming a professional athlete then he should cut his losses and focus in on cultivating a career that is allows him to capitalize upon his strongest skill sets. An adept athlete in this context who was unable to get recruited into a professional sports league may become "a sportscaster, sports coach, motivational speaker, sports content creator, sports administrator, athletic trainer, or referee". Ordinary Job, Ordinary Life "Quit your job? But I thought having a job was a good thing!" Jobs feel safe. We show up, do what we're supposed to do, and a check for the same amount comes in every couple of weeks. We can feel safe, secure, and comfortable with that. We can budget for housing, transportation, and food. We might even get a few weeks of vacation each year and have enough left over to go somewhere nice. So what's the problem? Average Isn't Satisfying, and Repetition is Drudgery The problem is that average just isn't satisfying. We can be thankful that we're not homeless or completely impoverished all we want, but that still doesn't scratch the itch we all have to live an extraordinary life—to spend more time doing what we love, less time doing what we don't love, and have more financial wealth to support our adventures. On top of that, most jobs involve doing the same things over and over again. You don't learn. One day blends into the next. You don't grow. Your life lacks richness, diversity, and excitement. All put together this doesn't make for a very inspiring way to live the one life you get.
