Several encyclopedias overview the contemporary system of criminal justice in America, but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems. Thus, this five-volume work surveys the history and philosophy of crime, punishment, and criminal justice institutions in America from colonial times to the present. It covers the whole of the criminal justice system, from crimes, law enforcement and policing, to courts, corrections and human services. Among other things, this encyclopedia: explicates philosophical foundations underpinning our system of justice; charts changing patterns in criminal activity and subsequent effects on legal responses; identifies major periods in the development of our system of criminal justice; and explores in the first four volumes - supplemented by a fifth volume containing annotated primary documents - evolving debates and conflicts on how best to address issues of crime and punishment. Its signed entries in the first four volumes--supplemented by a fifth volume containing annotated primary documents--provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U.S. system of law and justice. "With her signature flare for combining humor, romance and action, Armentrout weaves a fast-paced read that will have readers' hearts racing in more ways than one. Like Armentrout's previous heroines, Jasmine is fun and full of attitude, while Dez is as snarky as he is sexy. This is a must read for new and old fans alike!" -RT Book Reviews

Don't miss *White Hot Kiss*, book one in Jennifer L. Armentrout's *The Dark Elements* series from Harlequin TEEN! On a harsh alien planet, in a faraway galaxy, Sarah, a gentle human woman, is determined to start a new life, far away from the hardship she endured on Earth and the pitying glances of her friends. Once on Zyrgin, Sarah finds that, instead of being the empress and helpmeet at the side of the Zyrgin leader, she is merely his breeder. She is trapped in a gilded cage, not allowed to go out and interact with the other women on the planet, until she's proven her loyalty to the empire

by birthing Zaar's child. After her traumatic experiences in the raider camps, and the resultant PTSD, Sarah doubts she could ever make love to her Zyrgin warrior. Zaar assures her he has a superior plan to cure her of her problem. But is he able to reach through all the barriers Sarah has erected against true intimacy? When shadows fill the night, it's hard to tell friend from foe. With young to raise and her Pack under attack, Sylvan, Alpha of the wolf Weres, takes on her greatest challenge when she determines to uncover the faceless enemies known as the Shadow Lords. While her mate Drake struggles to find the link between the deadly Were fever virus and the mutation she carries, Sylvan calls upon her allies among the Vampires and Fae to defeat the secret pact of humans and Praeterns bent on destroying her and those she is bound to safeguard. Liege Jody Gates, Sylvan's ally and heir to a powerful Vampire Clan, must choose between her promise to Sylvan and her duty to Clan when she aligns her forces against the deposed Vampire Regent Francesca. If the battle to come is lost, all the Praetern species will be sentenced to exile in the shadows. In a bleak and apocalyptic future, Julia Benzoni flees the violence-saturated world of her mafia family to build a peaceful life in a No Name Town, Montana. Now, while civilization disintegrates into anarchy around her and evil men prey on the innocent, she's pursued by an alien, whose warrior life thrusts her back into the world where might makes right and violence is the order of the day. Torn, she now has to choose between her need to distance herself from war and violence and the alien warrior who holds her heart.
