"This is a new edition of *The Scientists Guide to Writing*, published in 2016. As a reminder the book provided practical advice on writing, covering topics including how to generate and maintain writing momentum, tips on structuring a scientific paper, revising a first draft, handling citations, responding to peer reviews, and managing coauthorships, among other topics. For the 2nd edition, Heard has made several changes, specifically:

- expanding the chapter on writing in English for non-native speakers
- adding two chapters: one on efficient and effective reading and one on selecting the right journal and how to use preprint sites.
- doubled the number of exercises
- various other add-ons to existing chapters, including information on reporting statistical results, handling disagreement among peer reviewers, and managing co-authorships"

-- Ready to write your book? So why haven't you done it yet? If you're like most nonfiction authors, fears are holding you back. Sound familiar? Is my idea good enough? How do I structure a book? What exactly are the steps to write it? How do I stay motivated? What if I actually finish it, and it's bad? Worst of all: what if I publish it, and no one cares? How do I know if I'm even doing the right things? The truth is, writing a book can be scary and overwhelming—but it doesn't have to be. There's a way to know you're on the right path and taking the right steps. How? By using a method that's been validated with thousands of other Authors just like you. In fact, it's the same exact process used to produce dozens of big bestsellers—including David Goggins's *Can't Hurt Me*, Tiffany Haddish's *The Last Black Unicorn*, and Joey Coleman's *Never Lose a Customer Again*. The Scribe Method is the tested and proven process that will help you navigate the entire book-writing process from start to finish—the right way. Written by 4x New York Times Bestselling Author Tucker Max and publishing expert Zach Obront, you'll learn the step-by-step method that has helped over 1,500 authors write and publish their books. Now a Wall Street Journal Bestseller itself, *The Scribe Method* is specifically designed for business leaders, personal development gurus, entrepreneurs, and any expert in their field who has accumulated years of hard-won knowledge and wants to put it out into the world. Forget the rest of the books written by pretenders. This is the ultimate resource for anyone

who wants to professionally write a great nonfiction book. Is there anything that Martin Amis can't write about? In this virtuosic, career-spanning collection he takes on James Joyce and Elvis Presley, Nabokov and English football, Jane Austen and Penthouse Forum, William Burroughs and Hillary Clinton. But above all, Amis is concerned with literature, and with the deadly clichés—not only of the pen, but of the mind and the heart. In *The War Against Cliché*, Amis serves up fresh assessments of the classics and plucks neglected masterpieces off their dusty shelves. He tilts with Cervantes, Dickens and Milton, celebrates Bellow, Updike and Elmore Leonard, and deflates some of the most bloated reputations of the past three decades. On every page Amis writes with jaw-dropping felicity, wit, and a subversive brilliance that sheds new light on everything he touches.

Helps both engineers and students improve their writing skills by learning to analyze target audience, tone, and purpose in order to effectively write technical documents This book introduces students and practicing engineers to all the components of writing in the workplace. It teaches readers how considerations of audience and purpose govern the structure of their documents within particular work settings. The *IEEE Guide to Writing in the Engineering and Technical Fields* is broken up into two sections: "Writing in Engineering Organizations" and "What Can You Do With Writing?" The first section helps readers approach their writing in a logical and persuasive way as well as analyze their purpose for writing. The second section demonstrates how to distinguish rhetorical situations and the generic forms to inform, train, persuade, and collaborate. The emergence of the global workplace has brought with it an increasingly important role for effective technical communication. Engineers more often need to work in cross-functional teams with people in different disciplines, in different countries, and in different parts of the world. Engineers must know how to communicate in a rapidly evolving global environment, as both practitioners of global English and developers of technical documents. Effective communication is critical in these settings. The *IEEE Guide to Writing in the Engineering and Technical Fields* Addresses the increasing demand for technical writing courses geared toward engineers Allows readers to perfect their writing skills in order to present knowledge and ideas to clients, government, and general public Covers topics most important to the working engineer, and includes sample documents Includes a companion website that offers engineering documents based on real projects The *IEEE Guide to Engineering Communication* is a handbook developed specifically for engineers and engineering students. Using an argumentation framework, the handbook presents information about forms

of engineering communication in a clear and accessible format. This book introduces both forms that are characteristic of the engineering workplace and principles of logic and rhetoric that underlie these forms. As a result, students and practicing engineers can improve their writing in any situation they encounter, because they can use these principles to analyze audience, purpose, tone, and form. Guides readers in writing and publishing a book, including creating authentic characters, editing, and finding an agent. You're going to love the way Paula LaRocque teaches in *The Book on Writing*. A celebrated writing coach with a sense of humor and a gentle touch, she's also a master writer herself with a long and distinguished career in both teaching and practicing the art of writing. *The Book on Writing* contains 25 chapters in three sections: • A dozen essential but easy-to-apply guidelines to good writing, from the importance of clarity to the value of a conversational tone. Paula LaRocque believes learning is easier and more successful when we are not only told but also shown. So her *Book on Writing* is chockfull of actual writing examples that supplement and illustrate principles that apply as naturally to fiction as they do to nonfiction. • How to tell a story—from building suspense, to effective description, to the uses of metaphor and literary devices. Paula LaRocque also deals with the narrative "engine" and the value of the archetype in plotting and characterization—as well as with pace and speed and leveling what she terms writing's "speedbumps." • A clear and concise handbook that deals with common problems in grammar, usage, punctuation, and style—the kind of problems that often trouble even wordsmiths. The handbook also debunks pesky language "rules" that are actually myths. *The Book on Writing* is one-stop shopping for writers. Read it once, and you'll be a better writer. Read it often, and you'll be among the best. **NEW YORK TIMES BESTSELLER** "An inspiring story that manages to be painful, honest, shocking, bawdy and hilarious." —The New York Times Book Review From stand-up comedian, actress, and breakout star of *Girls Trip*, Tiffany Haddish, comes *The Last Black Unicorn*, a sidesplitting, hysterical, edgy, and unflinching collection of (extremely) personal essays, as fearless as the author herself. Growing up in one of the poorest neighborhoods of South Central Los Angeles, Tiffany learned to survive by making people laugh. If she could do that, then her classmates would let her copy their homework, the other foster kids she lived with wouldn't beat her up, and she might even get a boyfriend. Or at least she could make enough money—as the paid school mascot and in-demand Bar Mitzvah hype woman—to get her hair and nails done, so then she might get a boyfriend. None of that worked (and she's still single), but it allowed Tiffany

to imagine a place for herself where she could do something she loved for a living: comedy. Tiffany can't avoid being funny—it's just who she is, whether she's plotting shocking, jaw-dropping revenge on an ex-boyfriend or learning how to handle her newfound fame despite still having a broke person's mind-set. Finally poised to become a household name, she recounts with heart and humor how she came from nothing and nowhere to achieve her dreams by owning, sharing, and using her pain to heal others. By turns hilarious, filthy, and brutally honest, *The Last Black Unicorn* shows the world who Tiffany Haddish really is—humble, grateful, down-to-earth, and funny as hell. And now, she's ready to inspire others through the power of laughter. Boost your confidence and grades with this step-by-step guide to tackling university writing assignments. Master the art of article writing!

The world of journalism is changing rapidly, and the modern journalist needs more than a basic knowledge of article writing to navigate it. *The Complete Guide to Article Writing* provides a compass for freelancers and students of journalism looking to write successfully on a wide variety of topics and for many different markets--both in print and online. From researching and interviewing to writing features, reviews, news articles, opinion pieces, and even blog posts, this one-stop guide will illuminate the intricacies of article writing so you can produce entertaining, informative, and salable articles. • Learn how to write coherently, cohesively, and concisely. • Choose the proper structure for the article you want to write. • Weave narrative and fact seamlessly into your pieces. • Develop your freelance platform with the latest in social media outlets. • Pitch your ideas like a pro. • Develop a professional relationship with editors. • And much more! Modern journalism can be a treacherous terrain, but with *The Complete Guide to Article Writing* as your companion, you'll not only survive the journey--you'll be able to write pieces that inform, entertain, inspire, delight--and sell! Provides advice on writing about science, sports, travel, and other nonfiction subjects. For beginners to advanced students, this warm and witty guide to writing includes a writing style chapter and a guide to writing everything from school papers to letters to e-mails. This is an engaging and practical introduction to the elements of grammar, sentence structure, and style that you need to write well across a range of academic, creative, and professional contexts, deftly combining practical strategies with scholarly principles. The second edition includes updated material based on a longstanding commitment to writing and to best international practice. It includes advice on reading; language; grammar and style; structuring; designing; paragraphing; punctuation; workplace and academic documents; digital writing for social media; and revising, editing,

and proofreading. *How Writing Works* should be on the desk of everyone who needs to write: students, professionals in all fields, and creative writers. It is an essential handbook for working writers and writing workers in the contemporary writing-reliant workplace. The accompanying companion website includes video interviews and presentations from leading grammarians including Professor David Crystal and Professor Geoff Pullum, in addition to online quizzes and activities to support readers' learning. If you want to write a book that's going to sell to both publishers and readers, you need to know how to produce a marketable work and help it become successful. It starts the moment you have an idea. That's when you begin thinking about the first elements of the business plan that will make your project the best it can be. The reality is that you don't want to spend time and energy writing a book that will never get read. The way to avoid that is to create a business plan for your book, and evaluate it (and yourself) through the same lens that an agent or acquisitions editor would. The *Author Training Manual* will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing fiction or non-fiction, or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea evaluations, sample business plans, editor and agent commentaries, and much more, *The Author Training Manual* provides the information you need to transform from aspiring writer to career author. Divided into decades from the 1920s to the 1990s, this compilation provides articles written by such authors as James Hilton, Phyllis A. Whitney, Allen Ginsberg, and Stephen King. Teaches the elements of good writing through the use of essential guidelines, literary techniques, and proper writing mechanics. To many, the task of writing about one's life seems daunting and difficult. Where does one begin? What stories will inspire your children and grandchildren, and which will simply amuse them? *Writing Your Life: A Guide to Writing Autobiographies* breaks down the barriers of personal narrative with an easy-to-follow guide that includes thought-provoking questions, encouraging suggestions, memory-jogging activities, tips for writing, advice on publishing one's stories in print and online, and examples of ordinary people's writing. *Writing Your Life* has already helped thousands write their life stories, and this fourth edition is sure to help today's writers preserve their memories and wisdom for many generations to come. From the acclaimed New York Times bestselling author: An essential volume for generations of writers young and old. The

twenty-fifth anniversary edition of this modern classic will continue to spark creative minds for years to come. For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne Lamott's hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne's father—also a writer—in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'" The New York Times Book Review said James Thayer's "writing is smooth and clear. It wastes no words, and it has a rhythm that only confident stylists achieve." The Essential Guide to Writing a Novel is a practical, step-by-step manual on how to craft your novel. The Essential Guide presents a set of tools for large issues such as story development and scene construction (Kirkus Reviews said Thayer's novels are "superbly crafted,") and it also examines techniques that will make your sentence-by-sentence writing shine "Thayer's prose is clear and clean," said the Seattle Times. How do the masters do it? The Essential Guide shows you the techniques of writers such as John Grisham, Maeve Binchy, Jeffery Deaver, and Charles Dickens. What makes their novels hard to put down? How do Mario Puzo, Sinclair Lewis, Patricia Cornwell, and Tom Wolfe make their stories so riveting and their prose so good? The Essential Guide sets out their techniques in concise detail. Just beginning your novel? Or in the middle of the novel and needing some guidance? The Essential Guide to Writing a Novel will show you the way. Among the many topics: The six traits necessary for a successful protagonist and three more traits that will make him or her stand out. Twenty-two techniques that will make your character's dialogue compelling. Creating dynamic settings that advance the story. Point of view—a critical skill—made easy. Five pace-killers and how to avoid them. Plotting the novel using the advantage shift. Constructing scenes to propel the reader to the next scene. "Thayer writes a vivid tale," the Cleveland Plain Dealer said. In The Essential Guide to Writing a Novel, he'll help you write your own vivid tale. The Educator's Guide to Writing a Book is for educators who dream of sharing their knowledge and skills with a broader audience. This exciting resource provides step-by-step guidance on how to set publishing goals, create well-written content and resource

material, develop an informative yet accessible writing style, prepare professional level manuscripts, and anticipate each stage in the publishing process. Chapters include authentic writing examples, tips from veteran authors and publishing professionals, and supportive resources. The Educator's Guide to Writing a Book is an invaluable guide that helps aspiring and novice authors move publishing goals from dreams to reality. . "Pinker has a lot of ideas and sometimes controversial opinions about writing and in this entertaining and instructive book he rethinks the usage guide for the 21st century. Don't blame the internet, he says, good writing has always been hard. It requires imagination, taking pleasure in reading, overcoming the difficult we all have in imaging what it's like to not know something we do know."--Publisher information. Are you ready to write your book? Partner with an experienced publisher, writing coach, and author and find out how to turn your research and scholarship into a book. • Breaks into clear, actionable steps the complex process of producing a logically organized, accessible, and useful book that has strong market potential • Explains how to determine when a book is the appropriate publication venue for a specific project • Describes how to form a mutually beneficial and collaborative partnership with a publisher • Provides clear guidance for navigating peer review and interpreting a publishing contract • Identifies effective strategies for overcoming the common struggles of every writer—advice that comes from someone who has faced all of these challenges as a writer herself Many employers complain about the poor communication skills of many young people seeking employment; and many people in employment are handicapped by the poor quality of their written work. While bad spelling, ineffective punctuation and faults in grammar create barriers between the writer and the reader, good English makes the reader feel at ease. The benefits of being a good writer at work are: Managers need to be able to communicate in order to get ideas across. If they cannot, they will be unable to make their viewpoint heard and they will be unable to influence customers, suppliers and colleagues as desired If you can write well, you will find that your views are given prominence over those of others. Effective communication, and that includes writing, is the key to career success and advancement This book is for those who have difficulty in getting thoughts into words or their ideas across, as well as those who are satisfied with their writing but are ready to consider the possibility of improving it. It is all about the ways in which writing at work is important - helping the reader to observe, remember, think, plan, organise and communicate. Adapted from the best-selling St. Martin's Guide to Writing, Axelrod and Cooper's Concise Guide to Writing

provides streamlined versions of the chapters covering six of the most commonly assigned genres in the first-year writing course — remembering events, writing profiles, explaining concepts, arguing a position, proposing a solution, and justifying an evaluation. The careful integration of well-chosen readings with guided writing instruction in these chapters is complemented by coverage of strategies for reading, writing, and research in brief-but-complete chapters at the end of the book. Read the preface. The Ultimate Guide to Business Writing is a comprehensive guide on how to write any kind of business document. Written clearly in an engaging voice, it explains in depth the whole process: from determining objectives to establishing readers' needs, conducting research, outlining, and designing a template; to writing the first draft; to editing for meaning, accuracy, concision, style and emotional impact; to creating glossaries and indices; to proofreading and working with reviewers. The book also explains how to exploit the psychology of perception and motivation, collaborate effectively with business colleagues, manage documents holistically across an organisation, and deal with the other everyday practicalities of managing knowledge in a corporate environment. Every section of the book is packed with questions to stimulate thinking and generate meaningful answers, and dozens of examples of what works and why. The book's also rich in practical examples drawn from real life, anecdotes, humour, and visual aids. But the advice isn't just practical and anecdotal: it's also rigorously supported by scientific evidence from notable linguists and psychologists such as Steven Pinker, Daniel Goleman and Yellowlees Douglas. And anyone keen to explore further will benefit from the bibliography and links to videos and other online resources. The book is ideal not just for professional business writers, such as editors, technical writers, copywriters and creative directors; it's also suitable for anyone whose job requires them to write, whether it's something as simple as an email or as complex as a set of policies or a handbook. This book is a user's guide for writing papers, short memos, and emails when the objective is to inform a busy reader preoccupied with other tasks. The objective is to make sure that all the information needed to understand the main points is in the paper and in the right order, minimizing or eliminating extraneous information and ideas, and resolving inconsistencies. The guide offers a mix of strategic and tactical advice, ranging from how to get started to how to order information in a paragraph. It is not a book about grammar; nor is it a treatise on critical thinking. Grammar and style are undeniably important, but elegantly written sentences will fail to communicate your conclusions if the flow of ideas and information is flawed. If the flow of ideas and information is muddled, your

reader will seldom read the paper in its entirety. The primary target audiences for the Guide are policymakers, intelligence analysts, law enforcement officers, and the business world, but the principles underlying the teaching points are applicable to anyone seeking to communicate ideas more effectively--including high school and university students. All students and professors need to write, and many struggle to finish their stalled dissertations, journal articles, book chapters, or grant proposals. Writing is hard work and can be difficult to wedge into a frenetic academic schedule. In this practical, light-hearted, and encouraging book, Paul Silvia explains that writing productively does not require innate skills or special traits but specific tactics and actions. Drawing examples from his own field of psychology, he shows readers how to overcome motivational roadblocks and become prolific without sacrificing evenings, weekends, and vacations. After describing strategies for writing productively, the author gives detailed advice from the trenches on how to write, submit, revise, and resubmit articles, how to improve writing quality, and how to write and publish academic work. **DON'T LET YOUR WRITING HOLD YOU BACK.** When you're fumbling for words and pressed for time, you might be tempted to dismiss good business writing as a luxury. But it's a skill you must cultivate to succeed: You'll lose time, money, and influence if your e-mails, proposals, and other important documents fail to win people over. The HBR Guide to Better Business Writing, by writing expert Bryan A. Garner, gives you the tools you need to express your ideas clearly and persuasively so clients, colleagues, stakeholders, and partners will get behind them. This book will help you:

- Push past writer's block
- Grab—and keep—readers' attention
- Earn credibility with tough audiences
- Trim the fat from your writing
- Strike the right tone
- Brush up on grammar, punctuation, and usage

Every phase of writing is addressed in this authoritative, practical guide. Specific topics include: organizing information, discovering a personal voice, enhancing readability and checking grammar and spelling. Featuring hundreds of exercises and written in a relaxed, entertaining style, this is the perfect aid for the many Americans who wish to improve their communication skills in both their business and personal lives. Flexible, easy to use, just enough detail?and now the number-one best seller. With just enough detail ? and color-coded links that send students to more detail if they need it ? this is the rhetoric that tells students what they need to know and resists the temptation to tell them everything there is to know. Designed for easy reference ? with menus, directories, and a combined glossary/index. The Third Edition has new chapters on academic writing, choosing genres, writing online, and choosing media, as well as new attention to multimodal

writing. The Norton Field Guide to Writing is available with a handbook, an anthology, or both ? and all versions are now available as low-cost ebooks. The Hidden Principles Behind Best-selling, Award-Winning Stories Great books don't happen by accident, but by writers who understand, consciously or unconsciously, principles hidden within the best stories. These common-sense principles are easy to learn, but they drive the success (or failure) of best-selling, award winning novels and films. Now, with The Write Structure, writers can learn these principles and quickly apply them to their own writing projects. Using simple, universal terminology and easy-to-grasp visualizations, The Write Structure uncovers the hidden truths of the best stories, allowing new and advanced writers to better understand their own stories and make them better. If you want to write a bestselling book or a screenplay ready to become a major feature, purchase a copy of The Write Structure and turn your story ideas into finished, published works. Click buy now and start learning these hidden story principles today. Prime Your Freelance Writing Career for Success! So you want to be a freelance writer. Great! But now you're faced with a laundry list of questions: Should I freelance full time or part time? Should I write for magazines, newspapers, or online markets? How do I dream up the perfect article idea, and how do I pitch it successfully? How do I negotiate contracts, foster relationships with editors, and start getting steady work while avoiding financial panic attacks and unpleasant ulcers? The Essential Guide to Freelance Writing answers all of these questions--and much more. From breaking in to navigating the basics of the business, this book is your road map to a fruitful and rewarding freelance life. You'll learn how to:

- Dig into various markets, including consumer magazines, trade journals, newspapers, and online venues.
- Make your digital mark and build your writing platform.
- Pitch like a pro and craft solid query letters that get responses.
- Conduct professional interviews in person, by phone, or by e-mail.
- Write and structure various types of articles, from front-of-the-book pieces to profiles and features.
- Quit your lackluster day job, and live the life you've always wanted.

Filled with insider secrets, candid advice, and Zachary Petit's trademark humor and blunt honesty, The Essential Guide to Freelance Writing won't just show you how to survive your freelancing writing career--it will teach you how to truly thrive. Provides a clear, step-by-step map for achieving success in each of the three major book-writing fields for children--fiction, nonfiction, and picture books. A Concise Course in the Art of Writing Whether you're composing a letter, writing a school thesis, or starting a novel, this resource offers expert advice on how to think more creatively, how to conjure up ideas from

scratch, and how to express those ideas clearly and elegantly. No matter where you find yourself in the writing process—from the daunting look of a blank page, to the rough draft that needs shaping, to the small but important questions of punctuation—you'll find what you need in this one handy, all-inclusive volume. Some features include:

- How to use journals to store ideas and explore potential topics
- Examples of style and technique from such masters of form as Mark Twain, H.L. Mencken, E.B. White, and Annie Dillard
- Advice on using outlines to shape your material—and drafts and revisions to refine them
- Selecting the proper words to convey both information and point of view
- A useful appendix on punctuation, ranging from commas to underlining and capitalization

DIV In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour and wisdom, *Reading Like a Writer* will inspire readers to return to literature with a fresh eye and an eager heart – to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading.

/div Writing a book is fun and easy--yes, FUN AND EASY--but it may not always feel that way. How do you find the time to write? How do you keep momentum? How do you deal with the horror of showing anyone a single sentence of your work-in-progress? The answers remain fun and easy, and author Elizabeth Sims will take your hand, dispel your worries, and show you how it's done in this stress-free guide to accomplishing your dream of writing your book. In *You've Got a Book in You*, Elizabeth is that encouraging voice guiding you through the entire process, from finding the right time and place to gathering all of your creative tools to diving right in and getting it done--page by page, step by step. It's easier than you think, and it all starts right here, right now. "This guide is witty, warm, and wise--and wonderfully down-to-earth as well. Elizabeth Sims doesn't just tell you that you've got a book in you, she shows you how to pour it out using your own creative spirit, common sense, and persistence." ~Lori L. Lake, author of *The Gun Series* and *The Public Eye Mystery Series* "If you're searching for the spark of inspiration to get started writing a book, and the nourishment to sustain

you to THE END, Elizabeth Sims's *You've Got a Book in You* will show you how to find it in yourself." ~Hallie Ephron, award-winning author of *There Was an Old Woman* "You won't find an easier-to-follow or more inspirational writing guide." ~L.J. Sellers, author of the bestselling Jackson mysteries "By focusing the high beams of her intelligence (and humor!) on the twisty trail of book-writing, in *You've Got a Book in You*, Elizabeth Sims proves herself a true writer's friend. As she guides you from the creation of a "working title" through her (brilliant!) "Making-It-Better Process," this well-established pro plays her most impressive cards--stacking the deck in favor of YOU!" ~Jamie Morris, Director, Woodstream Writers "Elizabeth Sims packs a twelve-week writing course into 280 pages. Inspirational and yet extremely hands-on, *You've Got a Book In You* will give newbies confidence to forge ahead and will remind veteran writers why they began writing in the first place--for the joy of it. I won't be surprised when the brilliant terms 'stormwriting' and 'heartbrain' become part of every writer's lexicon." ~Julie Compton, author of *Tell No Lies and Keep No Secrets* "The book is encouraging and inspiring, practical and witty. As a seasoned writer, I appreciate the reminders about the importance of putting yourself on a writing schedule. No more excuses. The many 'writing blasts' are very helpful and will get any writer out of the starting blocks. I especially enjoyed the section, 'Writing with the Masters.' What better way to get inspired, get a feel for different styles, and get jump-started on your writing? Excellent advice that I plan to incorporate in my future classes. I concur with Sims that 'writer's block' is greatly exaggerated. Is there any other profession that claims such a phenomenon? 'Excuse, me, but I have 'book-keeping block,' 'playing music block,' or 'painting block' today? I don't think so. Get yourself on a schedule, read some Sims, write with the masters, and you'll be on your way. You'll be glad you met this friend on your journey to becoming a successful writer." ~Gesa Kirsch, Ph.D., Professor of English, Director of Valente Center for the Arts and Sciences, Bentley University Let Rebecca McClanahan guide you through an inspiring examination of description in its many forms. With her thoughtful instruction and engaging exercises, you'll learn to develop your senses and powers of observation to uncover the rich, evocative words that accurately portray your mind's images. McClanahan includes dozens of descriptive passages written by master poets and authors to illuminate the process. She also teaches you how to weave writing together using description as a unifying thread. Writing for kids can be fun and rewarding-- if you can break into the competitive world of children's book publishing. Learn how to write and promote a children's book that will impress any publisher. The Professional Writing Guide is for

people who wish to improve the quality of their documents and the efficiency of their writing. Busy executives and other writers in organisations, who may spend between 30 and 80 per cent of their working time writing, will find it invaluable because it clearly outlines the principles that underlie effective documents. This book will enable executives to write confidently, competently, and persuasively. High quality output is crucial to a company's image and to a professional's own career advancement. Errors in a document can prove expensive. The Professional Writing Guide is an indispensable and accessible reference tool as well as a comprehensive style manual for writers who wish to avoid those expensive mistakes and make a positive impression. Written by two long-term professional writing educators with extensive experience of consulting to Australian business and industry, this lively and highly practical book features workable, reliable, and powerful strategies that can be used to systematically eliminate the writing problems of organisational writers. People who work well with numbers are often stymied by how to write about them. Those who don't often work with numbers have an even tougher time trying to put them into words. For instance, scientists and policy analysts learn to calculate and interpret numbers, but not how to explain them to a general audience. Students learn about gathering data and using statistical techniques, but not how to write about their results. And readers struggling to make sense of numerical information are often left confused by poor explanations. Many books elucidate the art of writing, but books on writing about numbers are nonexistent. Until now. Here, Jane Miller, an experienced research methods and statistics teacher, gives writers the assistance they need. The Chicago Guide to Writing about Numbers helps bridge the gap between good quantitative analysis and good expository writing. Field-tested with students and professionals alike, this book shows writers how to think about numbers during the writing process. Miller begins with twelve principles that lay the foundation for good writing about numbers. Conveyed with real-world examples, these principles help writers assess and evaluate the best strategy for representing numbers. She next discusses the fundamental tools for presenting numbers—tables, charts, examples, and analogies—and shows how to use these tools within the framework of the twelve principles to organize and write a complete paper. By providing basic guidelines for successfully using numbers in prose, The Chicago Guide to Writing about Numbers will help writers of all kinds clearly and effectively tell a story with numbers as evidence. Readers and writers everywhere will be grateful for this much-needed mentor.
