Mogworld Aug 29 2020 In a world full to bursting with would-be heroes, Jim couldn't be less interested in saving the day. His fireballs fizzle. He's awfully grumpy. Plus, he's been dead for about sixty years. When a renegade necromancer wrenches him from eternal slumber and into a world gone terribly, bizarrely wrong, all Jim wants is to find a way to die properly, once and for all. On his side, he's got a few shambling corpses, an inept thief, and a powerful death wish. But he's up against tough odds: angry mobs of adventurers, a body falling apart at the seams — and a team of programmers racing a deadline to hammer out the last few bugs in their AI.

On the Floor Sep 22 2022 In the City everything has a price. At the age of twenty-eight, Dubliner Geri Molloy has put her troubled past behind her to become a major player at Steiner's investment bank in London, earning £850k a year doing business with a reclusive hedge fund manager in Hong Kong who, in return for his patronage, likes to ask her about Kant and watch while she eats exotic Asian delicacies. For five years Geri has had it all, but in the months leading up to the outbreak of the Gulf War in 1991, her life starts to unravel. Abandoned by her corporate financier boyfriend, in the grip of a debilitating insomnia, and drinking far too much, Geri becomes entangled in a hostile takeover involving her boss, her client and her ex. With her career on the line as a consequence, and no one to turn to, she is close to losing it, in every sense. Taut and fast-paced, *On the Floor* is about making money and taking risks; it's about getting away with it, and what happens when you're no longer one step ahead; ultimately, though, it's a reminder to never, ever underestimate the personal cost of success.

Glorious Misadventures May 18 2022 The Russian Empire once extended deep into America: in 1818 Russia's furthest outposts were in California and Hawaii. The dreamer behind this great Imperial vision was Nikolai Rezanov ? diplomat, adventurer, courtier, millionaire and gambler. His quest to plant Russian colonies from Siberia to California led him to San Francisco, where he was captivated by Conchita, the fifteen-year-old daughter of the Spanish Governor, who embodied his dreams of both love and empire. From the glittering court of Catherine the Great to the wilds of the New World, Matthews conjures a brilliantly original portrait of one of Russia's most eccentric Empire-builders.

From Barbie® to Mortal Kombat Apr 29 2023 Girls and computer games—and the movement to overcome the stereotyping that dominates the toy aisles. Many parents worry about the influence of video games on their children's lives. The game console may help to prepare children for participation in the digital world, but at the same time it socializes boys into misogyny and excludes girls from all but the most objectified positions. The new "girls' games" movement has addressed these concerns. Although many people associate video games mainly with boys, the girls games' movement has emerged from an unusual alliance between feminist activists (who want to change the "gendering" of digital technology) and industry leaders (who want to create a girls' market for their games). The contributors to *From Barbie® to Mortal Kombat* explore how assumptions about gender, games, and technology shape the design, development, and marketing of games as industry seeks to build the girl market. They describe and analyze the games currently on the market and propose tactical approaches for avoiding the stereotypes that dominate most toy store aisles. The lively mix of perspectives and voices includes those of media and technology scholars, educators, psychologists, developers of today's leading games, industry insiders, and girl gamers. Contributors Aurora, Dorothy Bennett, Stephanie Bergman, Cornelia Brunner, Mary Bryson, Lee McEnany Caraher, Justine Cassell, Suzanne de Castell, Nikki Douglas, Theresa Duncan, Monica Gesue, Michelle Goulet, Patricia Greenfield, Margaret Honey, Henry Jenkins, Cal Jones, Yasmin Kafai, Heather Kelley, Marsha Kinder, Brenda Laurel, Nancie Martin, Aliza Sherman, Kaveri Subrahmanyam

The Man within My Head Sep 10 2021 Ever since he first read Graham Greene, Pico Iyer has been obsessed by the figure of the writer and by one of the great themes of Greene's work: what it means to be an outsider. Wherever he has travelled—usually as an outsider himself—Iyer has found reminders of Greene's life, observed scenes that might have been written by Greene, written stories that recall Greene. Yet as Iyer recounts the history of his obsession, another phantom image begins to assert itself, one that Iyer had long banished from his inner life—that of his father. Insightful, tender, superbly written, *The Man Within my Head* is another masterpiece from one of our great travel writers.

Prof: Alan Turing Decoded Dec 25 2022 Alan Turing was an extraordinary man who crammed into a life of only 42 years the careers of mathematician, codebreaker, computer scientist and biologist. He is widely regarded as a war hero grossly mistreated by his unappreciative country and it has become hard to disentangle the real man from the story. It is easy to cast him as a misfit, the stereotypical professor. But actually Alan Turing was never a professor, and his nickname 'Prof' was given by his codebreaking friends at Bletchley Park. Now, Alan Turing's nephew, Dermot Turing, has taken a fresh look at the influences on Alan Turing's life and creativity, and the later creation of a legend. For the first time it is possible to disclose the real character behind the cipher-text: how did Alan's childhood experiences influence the man? Who were the influential figures in Alan's formative years? How did his creative ideas evolve? Was he really a solitary, asocial genius? What was his wartime work after 1942, and why was it kept even more secret than the Enigma story? What is the truth about Alan Turing's conviction for gross indecency, and did he commit suicide? What is the significance of the Royal Pardon granted in 2013? In Dermot's own style he takes a vibrant and entertaining approach to the life and work of a true genius.

Bobby Sands Feb 03 2021 This is the best-selling biography of the IRA resistance fighter and hunger-striker, Bobby Sands. In this updated, new edition, Denis O'Hearn draws from a wealth of interviews with friends, comrades, fellow prisoners and prison wardens, to provide a faithful and shocking insight into life in Northern Ireland's H-Block prisons, an exploration of the motivations and thoughts of the Republican strikers and the story of one of the world's most radical, inspirational figures. Following his journey from its very beginnings - an ordinary boy from a working-class background in Belfast to a highly politicised, articulate revolutionary whose death in HM Prison Maze sent reverberations around the world, Bobby Sands: Nothing But An Unfinished Song captures the atmosphere of the time and the vibrancy of the man: a militant anti-imperialist who held on to his humanity despite living through a bitter, ugly struggle.

Money and the Early Greek Mind Jan 22 2020 How were the Greeks of the sixth century BC able to invent philosophy and tragedy? In this book Richard Seaford argues that a large part of the answer can be found in another momentous development, the invention and rapid spread of coinage, which produced the first ever thoroughly monetised society. By transforming social relations monetisation contributed to the ideas of the universe as an impersonal system, fundamental to Presocratic philosophy, and of the individual alienated from his own kin and from the gods, as found in tragedy.

Life Of The Mind Mar 16 2022 I invite you into my world of living poetry. The first time my pencil spoke on paper was in 1987, and over a lifespan of thirty years, my poems have progressed. They come from deep within my life experiences and the challenges of life itself, encompassing the themes of the true purity of love, passion, charity, loyalty, and commitment and truth to oneself. I seek to translate the deep meanings of these poems and the accompanying essays. But through you, the readers, we will all develop a better understanding of the "life of the mind" as my writing provokes your own thoughts of morality, sexuality, forgiveness, and liberation. I want to thank all my families, friends, and acquaintances who over the years encouraged me to publish my book of poems. I hope you truly enjoy them.

Men and Women in Interaction Jan 26 2023 For many years the dominant focus in gender relations has been the differences between men and women. Authors such as Deborah Tannen (*You Just Don't Understand*) and John Gray (*Men are from Mars, Women are from Venus*) have argued that there are deep-seated and enduring differences between male and female personalities, styles, even languages. Elizabeth Aries sees the issue as more complex and dependent on several variables, among them the person's status, role, goals, conversational partners, and the characteristics of the situational context. Aries discusses why we emphasize the differences between the sexes, the ways in which these are exaggerated, and how we may be perpetuating the very stereotypes we wish to abandon. For psychologists and researchers of gender and communication, this book will illuminate recent studies in gender relations. For general readers it will offer a stimulating counterpoint to prevailing views.

Firepower Jun 26 2020 Featuring hundreds of photos from the national archives, diagrams, and detailed specifications, Hunnicutt's *Firepower* remains the definitive developmental history of the heavy tank for the military historian, professional soldier, and tank restorer. This ambitious entry in R.P. Hunnicutt's 10-volume compendium of American tank history details the development of the heavy tanks from its initial conception in World War I to its final development in the 1960s. First developed after WWI, various iterations of the heavy armored military vehicle have served as a crucial component of American military operations in all manner of engagements. Hunnicutt spares no detail as he examines the origins and deployment of the Mark VIII and T1 and M6 in the 1930s and 1940s. First conceived as a vehicle to be used for infantry support, by the end of WWI, the heavy tank had evolved into the modern concept with a powerful turret mounted antitank gun protected by heavy armor--a fighting machine in its own right. Hunnicutt provides detailed technical information about these vehicles and their role in the U.S. Army and Marines. The M103A product-improved descendant of the T43 tanks and its many variations is also treated with exacting detail by Hunnicutt, who takes us through the numerous and important variations on the heavy tank design. Spanning the history of America's most widely used main battle tank, Hunnicutt's *Firepower* is an absolute must-have for anyone interested in the history of the American military.
