Food Is Love Mar 11 2021 Modern advertising has changed dramatically since the early twentieth century, but when it comes to food, Katherine Parkin writes, the message has remained consistent. Advertisers have historically promoted food in distinctly gendered terms, returning repeatedly to themes that associated shopping and cooking with women. Foremost among them was that, regardless of the actual work involved, women should serve food to demonstrate love for their families. In identifying shopping and cooking as an expression of love, ads helped to both establish and reinforce the belief that kitchen work was women's work, even as women's participation in the labor force dramatically increased. Alternately flattering her skills as a homemaker and preying on her insecurities, advertisers suggested that using their products would give a woman irresistible sexual allure, a happy marriage,

and healthy children. Ads also promised that by buying and making the right foods, a woman could help her family achieve social status, maintain its racial or ethnic identity, and assimilate into the American mainstream. Advertisers clung tenaciously to this paradigm throughout great upheavals in the patterns of American work, diet, and gender roles. To discover why, *Food Is Love* draws on thousands of ads that appeared in the most popular magazines of the twentieth and early twenty-first centuries, including the *Ladies' Home Journal*, *Good Housekeeping*, *Ebony*, and the *Saturday Evening Post*. The book also cites the records of one of the nation's preeminent advertising firms, as well as the motivational research advertisers utilized to reach their customers.

Washington Information Directory 2017-2018 Mar 03 2023
The Washington Information Directory is the essential one-stop source for information on U.S. governmental and nongovernmental agencies and organizations. This thoroughly researched guide provides capsule descriptions that help users quickly and easily find the right person at the right organization. The Washington Information Directory offers three easy ways to find information: by name, by organization, and through detailed subject indexes. The volume is topically organized, and within the taxonomic structure the relevant organizations are listed not only with contact information but with a brief paragraph describing what the organization (whether government or nongovernmental) does related to that topic. It is focused on Washington—an organization must have an office in Washington to be listed. It also includes dozens of resource boxes on particular topics and organization charts for federal agencies and NGOs. With more than 10,000 listing sand coverage of the new presidential administration, the 2017 – 2018 Edition features contact information for the following: • 115th Congress and federal agencies • Nongovernmental organizations • Policy groups, foundations, and institutions • Governors and other state officials • U.S. ambassadors and foreign diplomats • Congressional caucuses

Directory of Federal Prisons Oct 06 2020 The Directory of Federal Prisons is the most comprehensive guidebook to Federal Bureau of Prisons facilities on the market. Not simply a directory of information about each facility, this book delves into the shadowy world of American federal prisoners and their experiences at each prison, whether governmental or private. What sets the Directory of Federal Prisons apart from other prison guidebooks is the first-hand validation of information. Most prison directories provide basic information that is publicly available (e.g., security level, population number, location, etc.). This book is different. While basic data is included, hundreds of current federal inmates have been surveyed and interviewed in order to ascertain the culture of each institution. This enables the Directory of Federal Prisons to provide information such as the level of violence; whether sex offenders, informants, or LGBT inmates can walk the yard; the status of prison politics and organized gangs; and what prisoners believe is good and bad about each facility. This intelligence is much more important to understanding each prison and the experience therein than basic directory types of information. The Directory of Federal Prisons also includes a detailed discussion of the custody and classification system used by the Bureau of Prisons. This system determines how inmates are scored for security level and prison placement. Readers can use real Bureau of Prisons' case management forms to ascertain an actual security score, thereby taking the guesswork out of security levels, housing determinations, prison transfers, and how Public Safety Factors and Management Variables impact placement decisions. This is knowledge that only seasoned case managers tend to have. In each facility profile, you will learn: -Basic data such as the sex of the inmate population, security level, and medical and mental

health care levels.-Physical location and inmate mailing address.-Educational, psychological, vocational, and recreation programs available.-Notable incidents reported by the media (e.g., arrests, riots, significant fights, escapes, etc.).-Reviews by inmates currently at each facility, including information about violence, prison politics, who can walk each yard, and more.-And much more!
