Gender in the Fiction of George Sand May 23 2022 In *Gender in the Fiction of George Sand*, Françoise Massardier-Kenney argues that the major nineteenth-century French writer George Sand articulates in her novels a complex and extremely modern conception of gender, questioning prevalent patriarchal modes of discourse and redefining masculinity and femininity. Through the analysis of a representative sample of Sand's works (*Indiana*, *Jacques*, *La dernière Aldini*, *Jeanne*, *Horace*, *Valvedre*, *Melle la Quintinie*, *Gabriel*, *Lucrezia Floriana*, and *Nanon*), Massardier-Kenney uncovers the themes and strategies used by Sand to challenge essentializing and negative representations of women. *Gender in the Fiction of George Sand* demonstrates the centrality of Sand's pioneering exploration of the construction of gender. This original study will be of interest to scholars of nineteenth-century French literature and culture, women's literature, and gender studies.

Gender in Latin America Nov 28 2022 A comprehensive state-of-the-art review of gender in one of the world's most diverse and dynamic regions. The authors draw on a wide range of sources, including their own field research, to explore changes and continuities in gender roles, relations and identities during the late twentieth century into the twenty-first. Debunking traditional universalizing stereotypes, diversity in gender is highlighted in relation to the cross-cutting influences of age, class, sexuality, ethnicity, rural-urban residence, and migrant status.

Gender Oct 04 2020 How can we understand gender in the contemporary world? What psychological differences now exist between women and men? How are masculinities and femininities made? And what is the relationship between gender issues and globalizing concerns such as environmental change and economic restructuring? Raewyn Connell, one of the world's leading scholars in the field, is here joined by Rebecca Pearse as they answer these questions and more. Their book provides a readable introduction to modern gender studies, covering empirical research from all parts of the world in addition to theory and politics. As well as introducing the field, *Gender* provides a powerful contemporary framework for gender analysis with a strong and distinctive global awareness. Highlighting the multi-dimensional character of gender relations, the authors show how to link personal life with large-scale organizational structures and how gender politics changes its form in changing situations. The third edition of this influential and accessible book includes a whole new chapter on ecofeminism, environmental justice and sustainability. It also brings the review of research up to date throughout and explains new debates and emerging gender theories. *Gender* is engaged scholarship that moves from personal experience to global problems and offers a unique perspective on gender issues today.

Taking Sides: Clashing Views in Gender Oct 16 2021 This debate-style reader is designed to introduce students to controversies in gender

studies. The readings, which represent the arguments of leading psychologists and other social commentators, reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. Students will be exposed to a rich, exciting, and emotionally and politically charged body of theory, research, and practice. **TAKING SIDES: GENDER**, containing 20 issues organized into six parts, presents hotly debated issues in contemporary scholarly and public discourse. Students will actively develop critical thinking skills by analyzing opposing viewpoints and reach considered judgments. The issues will challenge students to consider what is sex, what is gender, and when is either relevant, and why. They will discover that what might appear to be binary, biologically based distinction is so much more. An Instructor's Resource Guide (available online only) accompanies the book. For each issue, the following have been provided: a synopsis of each author's position on the issue, teaching suggestions, and multiple-choice and essay questions. The teaching hints consist of suggestions for generating class discussion around the themes raised by the clashing essays.

Gender and Sexuality in Stoic Philosophy Sep 14 2021 This book investigates the Ancient Stoic thinkers' views on gender and sexuality. A detailed scrutiny of metaphysics, ethics and political philosophy reveals that the Stoic philosophers held an exceptionally equal view of men and women's rational capacities. In its own time, Stoicism was frequently called 'the manly school' of philosophy, but this volume shows that the Stoics would have also transformed many traditional notions of masculinity. Malin Grahn-Wilder compares the earlier philosophies of Plato and Aristotle to show that the Stoic position often stands out within Ancient philosophy as an exceptionally bold defense of women's possibilities to achieve the highest form of wisdom and happiness. The work argues that the Stoic metaphysical notion of human being is based on strikingly egalitarian premises, and opens new perspectives to Stoic philosophy on the whole.

Gender, Politics, and Allegory in the Art of Rubens Dec 30 2022 Gender, Politics, and Allegory in the Art of Peter Paul Rubens examines the intertwined relationship between paintings of family and marriage, and of war, peace, and statehood by the Flemish master. Drawing extensively upon recent critical and gender theory, Lisa Rosenthal reshapes our view of Rubens' works and of the interpretive practices through which we engage them. Close readings offer new interpretations of canonical images, while bringing into view other powerful works which are less familiar. The focus on gender serves as a catalyst that enables an original way of reading visual allegory, giving it a dynamic multivalence undiscovered by traditional iconographic methods.

Rising Suns, Rising Daughters Jan 19 2022 Surprisingly little is known in the West about Japanese women. Exploring themes of gender and class, this book traces the changing position of women through history and into the present. Repudiating the cliché of the submissive Japanese woman, the authors show women as active agents in both family and public life. The women's liberation movement of recent years resonates with echoes of struggle and resistance from earlier times. The broader movements of history and culture are brought into focus within the experiences of individual women.

A Contradiction Still Jun 11 2021 This text offers a critique of the views concerning gender and gender roles in Pope's poetry. It engages directly with current issues in feminist criticism, cultural studies and identity politics.

In the Shadows Sep 26 2022 This book illustrates how young Japanese males perform their gender identity and sexuality. It comprises a

comprehensive theoretical and practical reading of sexuality education as well as a comparative analysis that brings about a global perspective of the current issues concerning disease, sex, gender, and education for young people. An important resource for Japan specialists, this study will also be valuable for scholars in sociology, education, gender studies, and psychology.

Sex, Lies and Stereotypes May 30 2020 Sex, Lies and Stereotypes explores the shifting nature of gender role stereotypes and changing attitudes to sexuality, addressing the myths and the 'black and white' thinking that so many of us adopt in relation to male and female roles. It proposes a new way of perceiving life that could potentially revolutionize the way that we interact as humans. Dr Gary Wood asserts that 'men are from earth and women are from earth; it's high time we got over it.' He suggests that pop psychology focuses too much on the differences between the sexes, and argues that our relationships could be transformed if we viewed individuals for their personalities rather than merely their anatomy, as aspects of femininity can spill over into males, and vice versa. This book challenges us to question our assumptions and accept that there are grey areas in most people's gender identities.

The Contest for Social Science Apr 29 2020 Opening in the period of revolutions between 1789 and 1850, this book explores the contention over social science from above and below. It breaks away from orthodox interpretations of the development of social science to explore the subject as a contest for class and gender power.

Gender, Sex and Children's Play Feb 05 2021 Does gender, sex and sexuality influence children's play, and their learning? Can/should professionals try to influence children's gender and sexual concepts? Can/should professionals try to prevent gender stereotyping? These and other questions are explored in a lively and thought-provoking text that looks at why and how children inhabit or develop their gender and sexuality. Written in an approachable way and illustrated with case studies and linked to current research and theory, the book helps students, teachers and playworkers understand the debates about biology versus culture and social learning and how these impact on children's expression of gender and sexuality. Engaging the reader in a thorough reflection of their own views and approaches to the gendered and sexualized behaviour of children at play, this text is an invaluable guide for all those interested in the importance of play, gender and sexuality and how they relate to children's lives. Topics include: play and the behaviour of boys and girls within particular social contexts; play and girls' and boys' sexual behaviour and their associated feelings; play and children's self-concepts and expectations; the professional adult workers' role and the manifestation of gendered and/or sexualized play behaviour both in and outside a setting.

Literacy, Gender, and Work Feb 17 2022 Part of a series exploring how language influences and is influenced by educational processes, this book describes difficulties boys and girls experience in learning to read and write due to gendered divisions of labor. The book draws on an ethnographic study that followed 13 children from kindergarten through second grade and found that, in learning to read and write, children construct gendered identities and negotiate their social relations with parents, siblings, teachers, and peers; thus even in learning literacy, traditional gender roles in family, school, and society are often unwittingly perpetuated. The book's chapters are: (1) "Learning about Literacy from Children," presenting the assumptions of prevailing research perspectives: emergent literacy, social construction of literacy, and literacy as social status and identity; (2) "The Roots of Literacy Learning in Families," introducing four of the children and their families and showing how literacy is grounded in family relations and how children constructed their own orientations toward literacy; (3) "Literacy Instruction in

the Kindergarten Classroom," presenting the pedagogical context of children's literacy learning, and the approach to literacy learning in the kindergarten and its theoretical basis in the various perspectives on literacy; (4) "Children's Orientations toward Literacy in Kindergarten," comparing the classroom literacy learning of two children, and showing that children's responses to a teacher's pedagogical approach result from literacy orientations they had constructed at home; (5) "Tensions in Children's Kindergarten Literacy Learning," focusing on sources of tension in children's literacy learning and in the teacher's choices as related to gender and work issues; (6) "Beyond Stereotypes: The Complexity of Negotiating Gender and Work Relations in Literacy Learning," considering how structuring processes in the family and classroom related to work and gender affect individual literacy learning; (7) "Continuity and Change in First and Second Grade," examining continuity and change in four children's orientations toward literacy; and (8) "Reflections on the Journey," offering final observations on literacy, gender, and work, and arguing that theoretical perspectives that allow fuller and more complex understandings of emergent literacy are needed. An appendix summarizes the data collected on the children. Contains over 200 references. (TM)

Trans Mar 21 2022 THE SUNDAY TIMES BESTSELLER and a Times, Spectator and Observer Book of the Year 2021 'In the first decade of this century, it was unthinkable that a gender-critical book could even be published by a prominent publishing house, let alone become a bestseller.' Louise Perry, *New Statesman* 'Thank goodness for Helen Joyce.' Christina Patterson, *Sunday Times* 'Reasonable, methodical, sane, and utterly unintimidated by extremist orthodoxy, *Trans* is a riveting read.' Lionel Shriver 'A tour de force.' *Evening Standard* Biological sex is no longer accepted as a basic fact of life. It is forbidden to admit that female people sometimes need protection and privacy from male ones. In an analysis that is at once expert, sympathetic and urgent, Helen Joyce offers an antidote to the chaos and cancelling.

The Common Ground of Womanhood Sep 02 2020 Where is the "common ground of womanhood"? In a unique and highly nuanced study of previously unexplored cross-class alliances, Priscilla Murolo charts the shifting points of consensus and conflict among working women and their genteel club sponsors, working women and their male counterparts, and working women of differing ethnic backgrounds. The working girls' club movement lasted from the 1880s, when women poured into the industrial labor force, into the 1920s. Clubs initially were governed by upper-class women, and activities converged around standards of "respectability" and the defense and uplift of the character of women who worked for wages. Later, the workers themselves presided over the clubs, at which point the focus shifted to issues of labor reform, women's rights, and sisterhood across class lines. This valuable and lucid study of the club movement's trajectory throws new light on broader trends in the history of women's alliances, social reform, gender conventions, and worker organizing.

Gender, Care and Economics May 11 2021 This book offers a radical critique of mainstream, Marxist and feminist economic theories, ranging from the classical liberal economics of the eighteenth and nineteenth centuries to the feminist debates about domestic labour and patriarchy in the late twentieth century. It explores the increasing importance of household care relations, especially childcare, in shaping the domestic

labour process. Trends in household gender relations and working patterns in Britain are explored in the context of political ideas and policies regarding the state, the economy, gender and care.

The Gender Question In Education Mar 28 2020 In this innovative book, four prominent philosophers of education introduce readers to the central debates about the role of gender in educational practice, policymaking, and theory. More a record of a continuing conversation than a statement of a fixed point of view, *The Gender Question in Education* enables students and practicing teachers to think through to their own conclusions and to add their own voices to the conversation. Throughout, the authors emphasize the value of a gender-sensitive perspective on educational issues and the relevance of an ethics of care for educational practice. Among the topics discussed are feminist pedagogy, gender freedom in public education, androgyny, sex education, multiculturalism, the inclusive curriculum, and the educational significance of an ethics of care. The multi-author, dialogic structure of this book provides unusual breadth and cohesiveness as well as a forum for the exchange of ideas, making it both an ideal introduction to gender analysis in education and a model for more advanced students of gender issues.

Death and Desire Jan 07 2021 This innovative study of the use of gender in the Apocalypse of John pushes against the boundaries of feminist Biblical interpretation. Based on sociopolitical and literary readings of texts, it presents a challenging new way of reading the Apocalypse--incorporating fantasy theory to focus on death and desire.

Gender and the Musical Canon Aug 26 2022 Why is music composed by women so marginal to the standard 'classical' repertoire? In attempting to answer this fundamental question, this book examines the practices and attitudes that have led to the exclusion of women composers from the received 'canon' of performed musical works. Focusing on the tradition since 1800, Marcia J. Citron makes substantial use of feminist and interdisciplinary theory. After introducing the notion of canon and its role in cultural discourse, she explores important elements of canon formation: creativity, professionalism, music as gendered discourse, and reception. A final chapter provides a critique of many of these ideas with respect to the canon of the university music history curriculum. Professor Citron shows how an understanding of canon formation illuminates some of the basic issues that affect the discipline as a whole.

Stereotypes of Women in Power Nov 04 2020 How have women, at different times and in different places, been perceived when they cross the gender-coded boundaries between the public and private realms? This broad-ranging study of the continuing ambivalence toward women in positions of power and authority describes "domineering dowagers," witches, and "scheming concubines" in ancient, medieval, and modern days in ancient Egypt, Rome, Byzantium, China, medieval Europe, the Victorian era, and today. This sourcebook also offers coverage of the political representation of women in various cultures and historical periods.

Taking Sides Jan 31 2023 This debate-style reader is designed to introduce students to controversies in gender studies. The readings, which represent the arguments of leading sociologists and social commentators, reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. *Taking Sides* actively develops critical thinking skills by requiring students to analyze opposing viewpoints and reach considered judgements.

Reforming Men and Women Dec 26 2019 Before the Civil War, the public lives of American men and women intersected most frequently in the arena of religious activism. Bruce Dorsey broadens the field of gender studies, incorporating an analysis of masculinity into the history of early American religion and reform. His is a holistic account that reveals the contested meanings of manhood and womanhood among

antebellum Americans, both black and white, middle class and working class. Urban poverty, drink, slavery, and Irish Catholic immigration--for each of these social problems that engrossed Northern reformers, Dorsey examines the often competing views held by male and female activists and shows how their perspectives were further complicated by differences in class, race, and generation. His primary focus is Philadelphia, birthplace of nearly every kind of benevolent and reform society and emblematic of changes occurring throughout the North. With an especially rich history of African-American activism, the city is ideal for Dorsey's exploration of race and reform. Combining stories of both ordinary individuals and major reformers with an insightful analysis of contemporary songs, plays, fiction, and polemics, Dorsey exposes the ways race, class, and ethnicity influenced the meanings of manhood and womanhood in nineteenth-century America. By linking his gendered history of religious activism with the transformations characterizing antebellum society, he contributes to a larger quest: to engender all of American history.

Music, Gender, Education Jul 13 2021 This is the first book to focus on the role of education in relation to music and gender. Invoking a concept of musical patriarchy and a theory of the social construction of musical meaning, Lucy Green shows how women's musical practices and gendered musical meanings have been reproduced, hand-in-hand, through history. Dr. Green views the contemporary school music classroom as a microcosm of the wider society, and reveals the participation of music education in the continued production and reproduction of gendered musical practices and meanings.

Transitioning to Gender Equality Jul 01 2020 Gender Equality, the fifth UN Sustainable Development Goal (SDG 5), aims for the elimination of all forms of discrimination against women and girls. It thereby addresses all forms of violence, unpaid and unacknowledged care and domestic work, as well as the need for equal opportunities for leadership. Thus, the areas in which changes with regard to gender equality on a global scale are needed are very broad. In this volume, we focus on three main areas of inquiry, 'Sexuality', 'Politics of Difference' and 'Care, Work and Family', and raise the following transversal questions: How can gender be addressed in an intersectional perspective, linking gender to further categories of difference, which are involved in discrimination? In which ways are binary notions of gender taking part in inequality regimes and by which means can these binaries be questioned? How can we measure, control and portray progress with regard to gender equality and how do we, in doing so, define gender? Which multi-, inter- or transdisciplinary perspectives are needed for understanding the diversity of gender, in order to support a transition to 'gender equality'? Transitioning to Gender Equality is part of MDPI's new Open Access book series Transitioning to Sustainability. With this series, MDPI pursues environmentally and socially relevant research which contributes to efforts toward a sustainable world. Transitioning to Sustainability aims to add to the conversation about regional and global sustainable development according to the 17 SDGs. Set to be published in 2020/2021, the book series is intended to reach beyond disciplinary, even academic boundaries.

Tail of the Tigress Apr 02 2023 Throughout history men and women have lived with inequality. Now, in our sophisticated modern society, is the gender-gap finally diminishing, does it still exist? What are the facts; could women dominate from boardroom to bedroom? And, which position do women prefer; is being on top really all it's cracked up to be?

Gender Differences in Public Opinion Oct 28 2022 In this era in which more women are running for public office—and when there is

increased activism among women—understanding gender differences on political issues has become critical. In her cogent study, Mary-Kate Lizotte argues that assessing the gender gap in public support for policies through a values lens provides insight into American politics today. There is ample evidence that men and women differ in their value endorsements—even when taking into account factors such as education, class, race, income, and party identification. In *Gender Differences in Public Opinion*, Lizotte utilizes nationally representative data, mainly from the American National Election Study, to study these gender gaps, the explanatory power of values, and the political consequences of these differences. She examines the gender differences in several policy areas such as equal rights, gun control, the death penalty, and the environment, as well as social welfare issues. The result is an insightful and revealing study of how men and women vary in their policy positions and political attitudes.

Chicano Rap Feb 26 2020 Powered by a driving beat, clever lyrics, and assertive attitudes, rap music and hip hop culture have engrossed American youth since the mid-1980s. Although the first rappers were African Americans, rap and hip hop culture quickly spread to other ethnic groups who have added their own cultural elements to the music. *Chicano Rap* offers the first in-depth look at how Chicano/a youth have adopted and adapted rap music and hip hop culture to express their views on gender and violence, as well as on how Chicano/a youth fit into a globalizing world. Pancho McFarland examines over five hundred songs and seventy rap artists from all the major Chicano rap regions—San Diego, San Francisco and Northern California, Texas, and Chicago and the Midwest. He discusses the cultural, political, historical, and economic contexts in which Chicano rap has emerged and how these have shaped the violence and misogyny often expressed in Chicano rap and hip hop. In particular, he argues that the misogyny and violence of Chicano rap are direct outcomes of the "patriarchal dominance paradigm" that governs human relations in the United States. McFarland also explains how globalization, economic restructuring, and the conservative shift in national politics have affected Chicano/a youth and Chicano rap. He concludes with a look at how Xicana feminists, some Chicano rappers, and other cultural workers are striving to reach Chicano/a youth with a democratic, peaceful, empowering, and liberating message.

Men Speak Out Nov 16 2021 *Men Speak Out* is a collection of essays written by and about pro-feminist men. In the essays, which feature original, lively and accessible prose, anti-sexist men make sense of their gendered experiences in today's culture. The authors tackle the issues of feminism, growing up male, recognizing masculine privilege, taking action to change the imbalance of power and privilege and the constraints that men experience in confronting sexism. They describe their successes and challenges in bucking patriarchal systems in a culture that can be unsupportive of - or downright hostile to - a pro-feminist perspective. In these chapters, a diverse group of men reflect on growing up, share moments in their day-to-day lives, and pose serious questions about being a pro-feminist male living, working, thinking, and learning in a sexist society.

Writing Across Cultures Dec 18 2021 This is a timely and comprehensive study combining various critical approaches to the fiction of Buchi Emecheta, one of Africa's most illustrious and contentious women writers. Feminist (Showalter, Cixous, Kristeva) and postcolonial approaches (writing back) are taken to Emecheta's texts to illuminate the personal, political and aesthetic ramifications of the production of this "born writer." Poststructural programmes of analysis are shown to be less relevant to this writer's fiction than Marxist and Bakhtinian perspectives. Emecheta is shown to be a bridge-builder between two cultures and two worlds in narratives (both challenging and popular)

characterized by ambiguity, ambivalence and double-voiced discourse, all of which evince the writer's determination to expose imaginatively the colonial heritage of centre-periphery conflicts, cultural corruption, ethnic discrimination, gender oppression, and the migrant experience in multiracial communities.

Gender and Genius Apr 09 2021

Gender Trouble Jan 25 2020 Since its initial publication in 1990, this book has become a key work of contemporary feminist theory, and an essential work for anyone interested in the study of gender, queer theory, or the politics of sexuality in culture. This is the text where the author began to advance the ideas that would go on to take life as "performativity theory," as well as some of the first articulations of the possibility for subversive gender practices. Overall, this book offers a powerful critique of heteronormativity and of the function of gender in the modern world.

A Demographic Perspective on Gender, Family and Health in Europe Aug 02 2020 This open access book examines the triangle between family, gender, and health in Europe from a demographic perspective. It helps to understand patterns and trends in each of the three components separately, as well as their interdependencies. It overcomes the widely observable specialization in demographic research, which usually involves researchers studying either family or fertility processes or focusing on health and mortality. Coverage looks at new family and partnership forms among the young and middle-aged, their relationship with health, and the pathways through which they act. Among the old, lifelong family biography and present family situation are explored. Evidence is provided that partners advancing in age start to resemble each other more closely in terms of health, with the health of the partner being a crucial factor of an individual's own health. Gender-specific health outcomes and pathways are central in the designs of the studies and the discussion of the results. The book compares twelve European countries reflecting different welfare state regimes and offers country-specific studies conducted in Austria, Germany, Italy - all populations which have received less attention in the past - and Sweden. As a result, readers discover the role of different concepts of family and health as well as comparisons within European countries and ethnic groups. It will be an insightful resource for students, academics, policy makers, and researchers that will help define future research in terms of gender and public health.
