*Each number includes "Reviews and book notices." The  
Ultimate Italian Notebook is a vocabulary notebook for Italian  
learners, but it's also suitable for Italian speakers who want to  
learn English, because all the content in the vocabulary section  
is both in Italian and English. The notebook has 160 pages  
including 65 different topics. You will learn more than 3000+  
unique words and 600+ phrases. There are 64 pages about  
vocabulary and 14 pages about grammar. In total the notebook  
has 160 pages and 75 of them are empty pages for your own  
notes. Every topic includes two pages, the left pages contain all  
the most important words and phrases in Italian and the right  
pages are empty so that you can add all the words and phrases  
that you learn. Use this notebook as the center of your Italian or  
English studies and gather all the most important vocabulary  
within the pages of this notebook. Use it together with other  
learning resources like applications, text books, Italian classes  
or whatever you like and always add the words and phrases  
that you have learned in this notebook. This volume contains  
articles by 17 slavists from the Low Countries. Although they  
are all about Slavic linguistics, they cover a wide range of*

*subjects and their theoretical implications are often not restricted to slavistics alone. Most contributions deal with Russian or Slavic in general, but South and West Slavic are also represented. The reader who knows the strong points for which Dutch slavistics is traditionally known and appreciated will not be disappointed: s/he will find papers on syntax and semantics (Fortuin, Van Helden, Honselaar, Keijsper, Tribušinina), aspectology (Barentsen, Genis), philology (Veder), historical Slavic phonology and morphology (Derksen, Kortlandt, Vermeer), dialectology (Houtzagers, Pronk), the study of sentence intonation (Odé) and papers representing crossroads between these disciplines: philology and historical linguistics (Hendriks, Schaeken), aspectology and philology (Kalsbeek). Apart from its quality in the linguistic fields enumerated here, Dutch Slavic linguistics is known for its empirical approach: the main goal is to find explanations for linguistic reality. Theory is relevant inasmuch as it helps us to find such explanations and not for its own sake. Though each and every paper in this volume exemplifies this empirical attitude, it might be especially illustrative to mention that almost all authors who studied the larger contemporary Slavic languages made extensive use of language corpus resources, part of which were collected at the University of Amsterdam. The volume presents recent results in the field of Information Structure based on research on Italian and Italian dialects, and on further studies on several typologically different languages. The central idea is that Information Structure is not an exclusive matter of syntax but an interface issue which involves the interplay of at least the phonological, morpho-syntactic and semantic-pragmatic levels of analysis. In addition, the volume is*

*based on the study of actual language use and it adopts a cross-linguistic point of view. I. Il metodo delle coordinate -- II. Curve e superficie del secondo ordine. Il volume risponde all'esigenza di avviare allo studio della mediazione russoitaliano in ambito commerciale sin dal livello intermedio di competenza linguistica. Le 5 lezioni in cui si articola il testo presentano situazioni verosimili in un viaggio d'affari a Mosca. Ogni lezione è suddivisa in 7 parti ideate allo scopo di migliorare la padronanza delle abilità basilari per l'uso della lingua in campo professionale: costrutti e regole, requisito fondamentale per un'interazione efficace; metodo di organizzazione e memorizzazione del lessico microlinguistico, necessario per una comunicazione disambigua; capacità di autocontrollo e di uso alternato del russo e dell'italiano, indispensabili nell'interpretazione orale. Le attività di perfezionamento delle differenti competenze linguistiche sono di tipo diverso: esercizi a risposta multipla o a riempimento, esercizi di produzione scritta e orale guidata in lingua russa, attività di potenziamento della memoria e della velocità di risposta, traduzione bilingue. Le chiavi degli esercizi e la traduzione dei dialoghi rendono il manuale utilizzabile anche in autoapprendimento. Il testo si rivolge sia agli studenti universitari dei corsi di studio in Lingue o Mediazione linguistica sia a chi, avendo una conoscenza di livello intermedio del russo, intenda migliorare le abilità di interpretazione dialogica. This collection, which honors Anthony G. Cross and his work on Imperial Russia's eighteenth-century culture and connections with Britain, brings together contributions from sixteen leading scholar in the field of eighteenth-century Russian studies. The essays address a wide range of topics in the diplomatic, social, cultural, literary, and*

*linguistic history of the period, including its international dimensions, and represent a significant addition to scholarship on Russia's "long" eighteenth century. The reforms initiated by Peter the Great transformed Russia not only into a European power, but into a European culture--a shift, argues James Cracraft, that was nothing less than revolutionary. The author of seminal works on visual culture in the Petrine era, Cracraft now turns his attention to the changes that occurred in Russian verbal culture. The forceful institutionalization of the tsar's reforms--the establishment of a navy, modernization of the army, restructuring of the government, introduction of new arts and sciences--had an enormous impact on language. Cracraft details the transmission to Russia of contemporary European naval, military, bureaucratic, legal, scientific, and literary norms and their corresponding lexical and other linguistic effects. This crucial first stage in the development of a "modern" verbal culture in Russia saw the translation and publication of a wholly unprecedented number of textbooks and treatises; the establishment of new printing presses and the introduction of a new alphabet; the compilation, for the first time, of grammars and dictionaries of Russian; and the initial standardization, in consequence, of the modern Russian literary language. Peter's creation of the St. Petersburg Academy of Sciences, the chief agency advancing these reforms, is also highlighted. In the conclusion to his masterwork, Cracraft deftly pulls together the Petrine reforms in verbal and visual culture to portray a revolution that would have dramatic consequences for Russia, and for the world. Table of Contents: Figures Preface Note on Dates and Transliteration 1. Introduction Historiography Language, Culture, Modernity Russian before Peter 2. The*

Conclusion The Petrine Revolution in Russia The Persistence of Muscovy Abbreviations Appendix I: Texts Appendix II: Words Notes Bibliography Index*

*No previous author has attempted to document the changes in the Russian language during Peter the Great's reign by setting such a wide range of texts in historical context -- with full reference to the European background -- in a discussion accessible to non-specialists. James Cracraft extends the definition of literature beyond belles lettres and private writings, in which the Petrine era is relatively poor, to 'verbal culture,' in which it is rich, thereby offering a much wider range of material from a crucial age of reform and allowing exploration of such phenomena as the vocabulary of political power. In no other work in print in English can one find such detailed expositions of the publishing history and contents of such key texts as the Naval Statute and Military Statutes. Cracraft's judicious interpretation will be invaluable to serious students of Russian history. This is a work of immense erudition and a major contribution to scholarship. --Lindsey Hughes, University College London*

*Slavic linguistics, they cover a wide range of subjects and their theoretical implications are often not restricted to slavistics alone. Most contributions deal with Russian or Slavic in general, but South and West Slavic are also represented. The reader who knows the strong points for which Dutch slavistics is traditionally known and appreciated will not be disappointed: s/he will find papers on syntax and semantics (Fortuin, Van Helden, Honselaar, Keijsper, Tribušinina), aspectology (Barentsen, Genis), philology (Veder), historical Slavic phonology and morphology (Derksen, Kortlandt, Vermeer), dialectology (Houtzagers, Pronk), the study of sentence intonation (Odé) and papers representing crossroads between these disciplines: philology and historical linguistics (Hendriks, Schaeken), aspectology and philology (Kalsbeek). Apart from its quality in the linguistic fields enumerated here, Dutch Slavic linguistics is known for its empirical approach: the main goal is to find explanations for linguistic reality. Theory is relevant inasmuch as it helps us to find such explanations and not for its own sake. Though each and every paper in this volume exemplifies this empirical attitude, it might be especially illustrative to mention that almost all authors who studied the larger contemporary Slavic languages made extensive use of language corpus resources, part of which were collected at the University of Amsterdam. Il libro offre un ampio ventaglio di aspetti della cultura russa da una prospettiva di confronto con altrettanti aspetti della cultura e della realtà italiana. Si tratta di un volume collettaneo composto da saggi di affermati specialisti di differenti ambiti disciplinari che qui si sono focalizzati su momenti significativi dei contatti con la civiltà russa sia del passato, sia della contemporaneità. I cambiamenti epocali*

*Intervenuti in Europa e, specificatamente, in Russia, in seguito alla caduta del muro di Berlino hanno inciso notevolmente sulle possibilità di conoscenza diretta fra i due mondi e hanno anche avuto come conseguenza, nell'ultima decina d'anni, importanti modifiche su numerosità e qualità dei corsi universitari di lingua e letteratura russa. Con il mutare della situazione politica mondiale lo studio del russo non è più percepito nel nostro paese come una scelta ideologica o esotica, ma è motivato dalla realtà lavorativa in Italia e all'estero, e da una futura applicazione pratica nella società multiculturale. Di qui è nata l'esigenza di dedicare spazio alla riflessione sui diversi aspetti che la richiesta crescente di apprendimento della lingua russa, accompagnata dalla sua civiltà letteraria, comporta per alcune discipline, russistiche in primo luogo. Il volume è arricchito da saggi di italianistica e arabistica che contribuiscono ad evidenziare i secolari ed inesauribili legami della letteratura e della cultura russa con la cultura italiana e mondiale sia sul piano delle idee sia nella prospettiva dei contatti letterari e culturali.*
