Sentencing Guidelines in Antitrust Sep 30 2020 "This handbook was prepared by members of the Antitrust Section's Criminal Practice and Procedure Committee to provide the practitioner with a general overview and explanation of the Sentencing Guidelines, promulgated by the United States Sentencing Commission, applicable in criminal antitrust cases involving both corporate and individual defendants. It is intended as a practice aid that would prove helpful in counseling clients, assessing exposure, determining and advocating sentence ranges and fines, and evaluating and negotiating leniency and plea agreements." -- from the Foreword, p. iii.

Federal Sentencing Guidelines Oct 20 2019 In *United States v. Booker* (Booker), an unusual two-part opinion transformed federal criminal sentencing by restoring judges much of the discretion that Congress took away when it put mandatory

sentencing guidelines in place. In the first opinion, the Court held that the current mandatory sentencing guidelines violated defendants' Sixth Amendment right to trial by jury by giving judges the power to make factual findings that increased sentences beyond the maximum that the jury's finding alone would support. In the second part, a different majority concluded that the constitutional deficiency could be remedied if the guidelines were treated as discretionary or advisory rather than mandatory. As a result of the decisions, the Court struck down a provision in law that made the federal sentencing guidelines mandatory as well as a provision that permitted appellate review of departures from the guidelines. In essence, the high Court's ruling gives federal judges discretion in sentencing offenders by not requiring them to adhere to the guidelines; rather, the guidelines can be used by judges on an advisory basis.

Sentencing Law and Policy Sep 23 2022 Four leading sentencing scholars have produced the first and only text with enough up-to-date material to support a full course or seminar on sentencing. Other texts offer only partial coverage or out-of-date examples. The chapters in *Sentencing Law and Policy: Cases, Statutes, and Guidelines* present examples from three distinct types of sentencing guideline-determinate, and capital. The materials draw on the full spectrum of legal institutions, from the U.S. Supreme Court to the state court level, with close consideration of the role of legislatures and sentencing commissions. The only current, full-course text on sentencing, this new title offers: an 'intuitive', conceptually-based organization that looks at the essential substantive components and procedural steps following the sequence of decisions that typically occurs in every criminal sentencing example covering three distinct areas of sentencing, with chapter materials based on guideline-determinate, indeterminate, and capital sentencing materials from a range of institutions, including decision from the U.S. Supreme Court, state high courts, federal appellate courts, and some foreign jurisdictions - along with statutes and guideline provisions, and reports from various sentencing commissions and agencies in-text notes on sentencing policies that explain common practices in U.S. jurisdictions, then ask students to compare different institutional practices and consider the relationship between sentencing rules, politics, and the broader aims of criminal justice

The U.S. Sentencing Guidelines Oct 12 2021 A distinguished group of noted criminal justice specialists here examines the impact of the new U.S. sentencing guidelines, imposed in 1987, on law enforcement, the prosecution and courts, and corrections. Although these guidelines were created with the expressed purpose of increasing judicial fairness and reducing prison overcrowding, the contributors argue that their long range effects will be to aggravate present overcrowding problems to intolerably high levels. To make their case, contributors address individually such issues as plea bargaining, the new role of parole and corrections officers, the likely effects of the scheduled abolition of the parole board in 1992,

and more. Both students of criminal justice and practicing parole and corrections officers will find these chapters enlightening reading. Following an introductory overview that puts the U.S. sentencing guidelines in perspective, two chapters discuss their impact on law enforcement, officer discretion, and crime control and deterrence. Turning to an exploration of the courts, the contributors address prosecutorial discretion in plea bargaining, judicial discretion and sentencing disparities, case processing and sentencing alternatives, and how predictions of dangerousness affect the sentencing process. In their analysis of the relationship between the sentencing guidelines and corrections trends, the contributors examine issues such as community-based corrections and privatization, inmate litigation and constitutional issues, and recidivism. Finally, editor Dean Champion offers a perceptive synthesis of the volume by summarizing the serious problems posed by imposition of the U.S. sentencing guidelines. Four appendices provide additional related information for the student and researcher.
