From celebrity heartthrob, esteemed host of The Viall Files podcast, and adored member of Bachelor Nation Nick Viall comes Don't Text Your Ex Happy Birthday—a no-holds-barred dating advice book. With his trademark charm, relationship expertise, and exclusive sex and love Q&A series, Nick guides readers through topics of love, lust, dating, and heartbreak. Nothing is off limits as he delves into situationships, how to identify a f*ckboy, and defining healthy love vs. toxic love. Trying to figure out if friends with benefits is worth it? Unsure if they're really into you? Is the person you're seeing a walking red flag? Can you come back from being cheated on? Viall is here with all the answers and more. Filled with stories and one-liners you'll be texting your friends, Don't Text Your Ex Happy Birthday is an honest, entertaining, and heartfelt relationship handbook that actually answers the question, “What does it mean when they say . . . ?” 2022 Foreword Indies Finalist in Travel As we age, we all begin to have physical difficulties to contend with. In No Spring Chicken, Francine Falk-Allen—a polio survivor who knows a thing or two about living with a disability—offers her own take on how to navigate the complications aging brings with equanimity (and a sense of humor). The handbook is divided into three sections: Part I is a jaunt through accessible travel pleasures and pitfalls in several parts of the world; Part II addresses the adaptation people who love a handicapped or aging person could make in order to have a lighter, more mutually rewarding relationship with him or her, as well as advice for physically challenged and aging persons themselves regarding self-care, exercise, pain management, healthcare, and more; and Part III discusses the challenges, rewards and logistics of engaging with groups of people who share similar issues. Accessible and wryly funny, No Spring Chicken is a fun and informative guide to living your best and longest life—whatever your physical challenges, and whatever your age. I find that most people know what a story is until they sit down to write one. Flannery O'Connor Beginning writers often mistakenly believe that plot, or character development, or some structural element is the secret to getting their fiction published. This book looks at what really makes good fiction work: the story. A good writer is basically a storyteller, said Isaac Bashevis Singer, winner of the Nobel Prize for Literature. However, good storytelling techniques are seldom addressed in fiction-writing instruction. This booklet explores the magic of story and proposes attention to a simple set of three things: intriguing eccentricity, delightful details, and satisfying surprises. This slim volume will help writers everywhere create better stories, more likely to get published and appeal to readers. Philip Martin is an award-winning author, editor, and writing coach. Growing up can be tough, and sometimes you just need a big sister to help you through it. In Believe in You, the six Cimorelli sisters share their experiences and accumulated wisdom on everything from dating and friendship to faith and family. As Christina, Katherine, Lisa, Amy, Lauren and Dani tour the world with their music and read their social media messages, they meet and hear from thousands of girls sharing their hearts. Now, in Be URself, the sisters are connecting with young women who have the same concerns. The teen years may be difficult, confusing, awkward and scary, but it's a lot better when you have someone to go to for advice and some positive, encouraging words. Reading Believe in You is like receiving a big hug and the assurance that you never, ever have to try to change who you genuinely are to be like someone else. You are amazing and unique! Reading Smell Test is a great way to help you improve your lawyering skills and understand how to deal with similar situations while being entertained by the lively adventures of your fictional brethren. It also provides valuable primary materials for conducting training programs and professional seminars. From post-inauguration rallies to #NoDAPL and the Black Lives Matter movement to the global Women's March on Washington, the people are exercising their power through protest and community organizing in a way that hasn't been seen in years. For those looking

to organize for the first time or for seasoned activists looking to update their repertoire, the time is ripe for a playbook like *Becoming a Citizen Activist*. A longtime Seattle city councilmember and one of the city's most effective and inspiring leaders of progressive political and social change since the 1960s, Nick Licata outlines how to get organized and master the tactics to create change by leveraging effective communication strategies (such as creating community through online channels like Facebook and Twitter), how to effectively engage traditional media channels, and how to congregate local and national people power. Licata demonstrates by example that we can fight city hall. Balancing an idealistic vision of a better world with the clear-eyed pragmatism necessary to build it from the ground up, this smart and powerful book will empower any activist with the tools they need to effect change. People aren't shy about giving advice. Whatever the advice - romantic, parental, financial, nutritional, occupational - you've heard it all. But what's the best advice you ever heard? In *Chicken Soup for the Soul: The Best Advice I Ever Heard*, 101 people share the words that changed everything for them, and how their lives improved as a result. This combination Christmas and New Year New You book provides the gift of advice—relatable for readers of all ages from all walks of life—with tips on such diverse topics as love, fitness, forgiveness, friendship, character, self-discipline, and health. “Jam packed with insights from women in the field,” this is an invaluable career guide for the aspiring or experienced female tech professional (Forbes) As the CEO of a startup, Tarah Wheeler is all too familiar with the challenges female tech professionals face on a daily basis. That's why she's teamed up with other high-achieving women within the field—from entrepreneurs and analysts to elite hackers and gamers—to provide a roadmap for women looking to jump-start, or further develop, their tech career. In an effort to dismantle the unconscious social bias against women in the industry, Wheeler interviews professionals like Brianna Wu (founder, Giant Spacekat), Angie Chang (founder, Women 2.0), Keren Elazari (TED speaker and cybersecurity expert), Katie Cunningham (Python educator and developer), and Miah Johnson (senior systems administrator) about the obstacles they have overcome to do what they love. Their inspiring personal stories are interspersed with tech-focused career advice. Readers will learn: · The secrets of salary negotiation · The best format for tech resumes · How to ace a tech interview · The perks of both contracting (W-9) and salaried full-time work · The secrets of mentorship · How to start your own company · And much more **BONUS CONTENT:** Perfect for its audience of hackers and coders, *Women in Tech* also contains puzzles and codes throughout—created by Mike Selinker (Lone Shark Games), Gabby Weidling (Lone Shark Games), and cryptographer Ryan “LostboY” Clarke—that are love letters to women in the industry. A distinguished anonymous contributor created the Python code for the cover of the book, which references the mother of computer science, Ada Lovelace. Run the code to see what it does! From the bestselling author of *Nickel and Dimed* and a former editor in chief *Mother Jones*, this women's history classic brilliantly uncovers the constraints imposed on women in the name of science. Since the nineteenth century, professionals have been invoking scientific expertise to prescribe what women should do for their own good. Among the experts' diagnoses and remedies: menstruation was an illness requiring seclusion; pregnancy, a disabling condition; and higher education, a threat to long-term health of the uterus. From clitoridectomies to tame women's behavior in the nineteenth century to the censure of a generation of mothers as castrators in the 1950s, doctors have not hesitated to intervene in women's sexual, emotional, and maternal lives. Even domesticity, the most popular prescription for a safe environment for women, spawned legions of “scientific” experts. Barbara Ehrenreich and Deirdre English has never lost faith in science itself, but insist that we hold those who interpret it to higher standards. Women are entering the medical and scientific professions in greater numbers but as recent research shows, experts continue to use pseudoscience to tell women how to live. For *Her Own Good* provides today's readers with an indispensable dose of informed skepticism. When you're dating or married to the right guy, life couldn't be better. What happens though when the man of your dreams starts behaving badly and your relationship becomes a living nightmare? What can you do to stand strong, make the right choices and not lose your mind? Unfortunately, I know more on the topic of men behaving badly than I wish I did. You see, I was the guy whose bad behavior almost cost me my marriage. I reluctantly call myself a loser, because I almost lost the most important people in my life; my wife and children. After separating twice from my wife and on the verge of divorce, I fortunately learned how to change. My hope now, is to use the things I discovered to help you become a lot stronger and smarter. So, if you are dating or married to a man who is behaving badly, this book will give you the practical skills needed to build the type of relationship you desire. The good news is your life can go in a completely different direction, and if you're willing, that exciting journey can start now. I wish you every success in love and life. Enjoy reading this book. "This book helped me discover that happiness lies within the choices we make. It is a choice to be happy and this book gave me the strength to make the right ones." (Liz Lawrence) "Having been in a long term relationship since a teenager, I was beginning to feel that my unhappiness was just what I had to live with. However, I found from the tips and advice given in this book, that it wasn't true. It helped give me the courage to turn my life around and I'm forever grateful. Thank you." What started as a simple search for information on life after early retirement, has become a must read for people thinking about retirement at any age. The 50 men and women interviewed for this book are open, honest and candid in sharing their likes and dislikes as well as the highs and lows they have experienced in their early retirement. This book is an excellent source of relevant stories, insights and advice. The author shares his insights into the craft of writing and offers a humorous

perspective on his own experience as a writer. "Although *Gutsy Women* is a book of travel tips and wisdom, like its predecessor, *Travelers' Tales: A Woman's World*, it is about more than just travel. It is about living, the rewards of risk-taking, feeling, learning, loving".--From the Introduction to *Gutsy Women*. This book is a "collection of personal stories, advice, and reflections for HSPs. It's like a book inside the honest and entertaining diary of a highly sensitive introvert. You may see yourself in some of these stories and realize: "I didn't know anyone else felt this way!" - provided by the author. Since 2015 the BBC has been asking CEOs and founders a simple question: 'What's the advice you wish you had when you started out?' This book is the culmination of their insights, expertise, and secrets to success. It's wisdom that can help anyone, from budding entrepreneurs to career climbers. Drawing on original interviews from the *CEO Secrets* series, conducted by Dougal Shaw, this book covers a range of sectors, from tech and economics to fashion and hospitality. It contains unparalleled insights on overcoming the many challenges facing entrepreneurs, providing guidance and motivation from both leaders of well-known international firms, like Airbnb, LinkedIn, Tinder, and Mumsnet, as well as smaller start-ups breaking through. If you've ever dreamed of starting your own company, or perhaps already run a business but want to become a better leader, then this is the book for you. Whether you have your own questions because you're preparing to come out to your kids, or you aren't sure how to explain to your kids why their uncle has a boyfriend or why their friend has two mommies, this book can help. With an entertaining and educational approach to educating yourself and your peers about the issues and topics surrounding the LGBTQ+ community, *Rainbow Relatives* will provide answers to your kids' questions and help you raise them to be open-minded and accepting adults. First and foremost, this book will help you approach the conversations you need to have and predict what you can expect from them. Author Sudi Karatas tells a variety of stories, such as that of a Mormon woman's transition from fighting against gay rights to becoming a crusader for them. Also included are the voices of filmmakers, actors, musicians, mental health professionals, and more. Through *Rainbow Relatives*, Karatas helps parents support, advocate for, and educate their children, relatives, and family friends. Hopeful, hilarious musings and serious advice for new teachers from the formerly anonymous blogger behind *Love, Teach*. Every teacher will tell you the first years are the hardest, and even the most confident of the pack sometimes ask themselves, Am I cut out for this? Kelly Treleaven, the teacher and once-anonymous blogger behind *Love, Teach*, wants you to know that you're not alone, and that yes, she has cried under her desk, too. Treleaven's blog has become a sensation in the education world, known for its heartfelt, high-spirited dispatches straight from the trenches and its practical advice. In Treleaven's debut book, she gives rookie teachers the advice she wishes she'd had when she started out in a large district in Houston. From logistical questions like how to prep and organize a classroom, to deeper issues like how to build relationships with students, navigate administration, and avoid burnout, *Love, Teach* is an essential book for anyone working in education today or considering the profession. With raw feeling, humor, and a razor-sharp perspective, *Love, Teach* supports teachers in their fight for a better future, and helps them celebrate the victories, large and small. Stories and advice for step families. **NEW YORK TIMES BESTSELLER** • The definitive guide to telling an unforgettable story in any setting, drawing on twenty-five years of experience from the storytelling experts at *The Moth* "From toasts to eulogies, from job interviews to social events, this book will help you with ideas, structure, delivery and more."—CNN **LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD** Over the past twenty-five years, the directors of *The Moth* have worked with people from all walks of life—including astronauts, hairdressers, rock stars, a retired pickpocket, high school students, and Nobel Prize winners—to develop true personal stories that have moved and delighted live audiences and listeners of *The Moth's* Peabody Award-winning radio hour and podcast. "Dating Advice for Women from Men" was written for women by a man. It might sound a bit ironic but it is filled with great tips that ladies venturing into the world of dating can use. Based on what the author advises, the best dating tips for women comes from the male perspective. Author, Lance Steele believes that women who have a difficult time dating do not take the time to look at things from a male's point-of-view.

What a male looks for in a woman and not the opposite way around is the key for a woman to find her special someone. Not understanding this angle often leads to ladies choosing the wrong man to pursue a relationship with or to end up ruining the one that they are with. This book is a great addition to any females book collection as it zones in on the main points that a women should focus on if she is seeking male companionship. The author has ensured that the text is laid out in a fashion that is easy to read and understand. In the dating game, all good advice is a necessary vice. When Ruby Walker was fifteen, she went from a numb, silent, miserable high school dropout to a joyous loudmouth in one year flat. **ADVICE I IGNORED** answers the question everyone's been asking her since: What happened? From the internationally best-selling author of the His Dark Materials trilogy, a spellbinding journey into the secrets of his art--the narratives that have shaped his vision, his experience of writing, and the keys to mastering the art of storytelling. One of the most highly acclaimed and best-selling authors of our time now gives us a book that charts the history of his own enchantment with story--from his own books to those of Blake, Milton, Dickens, and the Brothers Grimm, among others--and delves into the role of story in education, religion, and science. At once personal and wide-ranging, *Daemon Voices* is both a revelation of the writing mind and the methods of a great contemporary master, and a fascinating exploration of storytelling itself. This book is a collection of stories, reflections and advice written by proficient scientists. They address the question of what doing science means to them, and describe attitudes and working practices that have proved effective and rewarding. The book is aimed in particular at young people who are attracted by science or already undertaking undergraduate studies, and who are considering making science their long-term profession. It will also be helpful and revealing to early-career scientists who are searching for their own best route to success. The book serves as a platform for experienced scientists to describe their original inclination, how that subjective disposition found its expression in their way of doing science, whether their expectations were met, and what achievements they can claim. But it is not restricted to success: contributors also share details of the limitations and failures they have encountered. Last but not least they describe how they see science now, how they think it will be in the near future, and what advice they would give to their much younger colleagues. Readers will appreciate the diversity of the individual paths shaped by different education, motivation, ambition, inclination, intuition, feeling, belief and eligibility. At the same time the stories confirm that science relies on a translation of this subjective level into an objective level, one that is shared and accepted by the international scientific community, and whose results are produced with a commonly accepted and fully rational scientific method of investigation.
