To End a War Sep 27 2020 When President Clinton sent Richard Holbrooke to Bosnia as America's chief negotiator in late 1995, he took a gamble that would eventually redefine his presidency. But there was no saying then, at the height of the war, that Holbrooke's mission would succeed. The odds were

strongly against it. As passionate as he was controversial, Holbrooke believed that the only way to bring peace to the Balkans was through a complex blend of American leadership, aggressive and creative diplomacy, and a willingness to use force, if necessary, in the cause for peace. This was not a universally popular view. Resistance was fierce within the United Nations and the chronically divided Contact Group, and in Washington, where many argued that the United States should not get more deeply involved. This book is Holbrooke's gripping inside account of his mission, of the decisive months when, belatedly and reluctantly but ultimately decisively, the United States reasserted its moral authority and leadership and ended Europe's worst war in over half a century. *To End a War* reveals many important new details of how America made this historic decision. What George F. Kennan has called Holbrooke's "heroic efforts" were shaped by the enormous tragedy with which the mission began, when three of his four team members were killed during their first attempt to reach Sarajevo. In Belgrade, Sarajevo, Zagreb, Paris, Athens, and Ankara, and throughout the dramatic roller-coaster ride at Dayton, he tirelessly imposed, cajoled, and threatened in the quest to stop the killing and forge a peace agreement. Holbrooke's portraits of the key actors, from officials in the White House and the Élysée Palace to the leaders in the Balkans, are sharp and unforgiving. His explanation of how the United States was finally forced to intervene breaks important new ground, as does his discussion of the near disaster in the early period of the implementation of the Dayton agreement. *To End a War* is a brilliant portrayal of high-wire, high-stakes diplomacy in one of the toughest negotiations of modern times. A classic account of the uses and misuses of American power, its lessons go far beyond the boundaries of the Balkans and provide a powerful argument for continued American leadership in the modern world.

The Death of Yugoslavia Jan 24 2023 "The Death of Yugoslavia is the first account to go behind the public face of battle and into the closed worlds of the key players in the war. Laura Silber, Balkans correspondent for the Financial Times, and Allan Little, award-winning BBC journalist, plot the road to war and the war itself. They pinpoint the key events that occurred in the capitals of Belgrade and Zagreb, and in villages ravaged by 'ethnic cleansing', and draw on eye-witness testimony, scrupulous research and hundreds of interviews to give unprecedented access to the facts behind the media stories. Challenging the received wisdom that the war occurred as a spontaneous and inevitable eruption of ethnic hatreds, the authors expose, step-by-step, a plan to divide the country by force of arms." "Could anything have been done to prevent this terrible tragedy? What will be its lasting effects? The authors consider these questions and assess the present situation and its implications for future international relations."--BOOK JACKET. Nationalism, Myth, and the State in Russia and Serbia Apr 03 2021 This book examines the role of Russian and Serbian nationalism in different modes of dissolution of the Soviet Union and Yugoslavia in 1991. Why did Russia's elites agree to the dissolution of the Soviet Union along the borders of Soviet republics, leaving twenty-five million Russians outside of Russia? Conversely, why did Serbia's elite succeed in mobilizing Serbs in Croatia and Bosnia for the nationalist cause? Combining a Weberian emphasis on interpretive understanding and counterfactual analysis with theories of nationalism, Veljko Vujaković highlights the role of historical legacies, national myths, collective memories, and literary narratives in shaping diametrically opposed attitudes toward the state in Russia and Serbia. The emphasis on the unintended consequences of communist nationality policy highlights how these attitudes interacted with institutional factors, favoring different outcomes in 1991. The book's postscript examines how this explanation holds up in the light of Russia's annexation of Crimea.

Rebuilding Life after Brain Injury Nov 22 2022 Rebuilding Life after Brain Injury: Dreamtalk tells the survival story of Sheena McDonald, who in 1999 was hit by a police van and suffered a very severe brain injury. Sheena's story is told from her own, personal standpoint and also from two further unique and invaluable perspectives. Allan Little, a BBC journalist and now Sheena's husband, describes both the physical and mental impact of the injury on himself and on Sheena. Gail Robinson, Sheena's neuropsychological rehabilitation specialist, provides professional commentaries on Sheena's condition, assessment and recovery process. The word Dreamtalk, created by Allan to describe Sheena's once "hallucinogenic state", sets the tone for this book. It humanises and contextualises the impact of brain injury, providing support and encouragement for patients, professionals and families. It presents exclusive insights into each stage of recovery, spanning coma, altered consciousness, post-traumatic amnesia and rehabilitation; all showing how she has defied conventional clinical expectations and made an exceptional recovery. This book is valuable reading to those who have suffered a brain injury and also to professionals such as neurologists, neuropsychologists, physiotherapists, occupational therapists and speech therapists working in the field.

Misha Glenny presents a lucid and fair-minded account of each national group in the Balkans and its struggle for statehood. The narrative is studded with sharply observed portraits of kings, guerrillas, bandits, generals, and politicians. The Balkans Jan 12 2022 The Balkans has long been a place of encounter among different peoples, religions, and civilizations, resulting in a rich cultural tapestry and mosaic of nationalities. But it has also been burdened by a traumatic post-colonial experience. The transition from traditional multinational empires to modern nation-states has been accompanied by large-scale political violence that has resulted in the deaths of hundreds of thousands and the permanent displacement of millions more. Mark Biondich examines the origins of these conflicts, while treating the region as an

integral part of modern European history, shaped by much the same forces and intellectual impulses. It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans. As Biondich shows, the political violence that has bedevilled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism, employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity. Throughout this period, the Balkan proponents of democratic governance, civil society, and multiculturalism were progressively marginalized. The history of revolution, war, political violence, and ethnic cleansing in the modern Balkans is above all the story of this tragic marginalization.

The Sovereignty Paradox Aug 07 2021 By looking at the post-conflict international administrations in Bosnia and Herzegovina, Kosovo, and East Timor, the book examines how particular ideas about the state, and about the appropriate relationship between the state and its population, have influenced the statebuilding efforts of the international community.

Endgame Jun 05 2021 In 1993, the UN Security Council officially made Srebrenica the world's first UN-protected civilian safe area and stripped the town's Muslim defenders of their tanks and artillery. Two years later, Srebrenica fell after UN commanders turned down repeated requests for NATO air strikes to halt attacking Bosnian Serbs. As many as 7,000 Muslim men perished in mass executions or ambushes along a harrowing forty-mile flight one survivor called "The Marathon of Death." In *Endgame: The Betrayal and Fall of Srebrenica, Europe's Worst Massacre Since World War II*, Pulitzer Prize-winning author David Rohde follows the experiences of

seven central characters—three Muslims in Srebrenica, two Dutch peacekeepers charged with defending the surrounded town, and two Serb Army soldiers attacking it—through the ten-day period that changed the course of the war in Bosnia and was arguably the darkest hour in United Nations history. Rohde exposes how the United States, France, Great Britain, the United Nations and the Bosnian government—out of incompetence or cynicism—allowed 40,000 Muslims to fall into the hands of their potential executioners. Part of an apparent Serb endgame to win the war, Srebrenica's fall ended up playing a crucial role in the Clinton administration's "endgame strategy" that halted the conflict. A new afterword by the author updates recent efforts to find the missing victims of Srebrenica and to apprehend and prosecute the executioners. The most comprehensive book to date on the subject, *Endgame* is a tale of cynical power politics in the post-Cold War era, a case study in genocide, and a disturbing testament to the power of propaganda and self-delusion.

Confronting the Yugoslav Controversies Feb 19 2020 This collection of essays examines Yugoslavia's dissolution and the subsequent wars.

Rape Warfare Jun 17 2022 In 1992, Beverly Allen learned of the existence of rape/death camps in Bosnia-Herzegovina and Croatia from a former student, a woman of Croatian heritage. In these camps, women have been detained and raped repeatedly by Serbian soldiers, whose goal often is to impregnate their victims or to torture them before they are killed. In this highly personal account, Beverly Allen provides a compelling testimony and analysis of the horrifying phenomenon of "a military policy of rape for the purpose of genocide". In *Rape Warfare*, Allen examines the complexity of identity in Bosnia-Herzegovina and Croatia through the accounts of rape/death camp survivors and those who work to help them. She then presents and analyzes the information she has gathered about genocidal rape, all the while asking, "How can I, an empathizing outsider, communicate what is happening without reinforcing the damage that has already been done?" In a nuanced discussion of the ethics of representing such atrocities, she decides to "forgo storytelling except when the stories I tell are my own". Allen concludes with an impassioned argument for bringing to trial the perpetrators of genocidal rape. By turns personal, polemical, and informative, *Rape Warfare* is a lucid guide for anyone seeking to make sense of what is happening in Bosnia-Herzegovina and Croatia.

Reporting the Siege of Sarajevo May 04 2021 The Siege of Sarajevo remains the longest siege in modern European history, lasting three times longer than the Battle of Stalingrad and over a year longer than the Siege of Leningrad. Reporting the Siege of Sarajevo provides the first detailed account of the reporting of this siege and the role that journalists played in highlighting both military and non-military aspects of it. The book draws on detailed primary and secondary material in English and Bosnian, as well as extensive interviews with international correspondents who covered events in Sarajevo from within siege lines. It also includes hitherto unpublished images taken by the co-author and award-winning photojournalist, Paul Lowe. Together Morrison and Lowe document a relatively short but crucial period in both the history of Bosnia & Herzegovina, the city of Sarajevo and the profession of journalism. The book provides crucial observations and insights into an under-researched aspect of a critical period in Europe's recent history.

Responsibility of Command Mar 22 2020 In this study Colonel Mark A. Bucknam examines the role that theater-level commanders in the UN and NATO played in influencing airpower over Bosnia between April 1993 and December 1995. He presents it in a chronological order that offers a coherent account of Operation Deny Flight. This study challenges assumptions about military leaders, their motivations, and the state of civil-military relations during the Bosnia conflict.

Triumph of the Lack of Will Dec 11 2021 Analysts, policymakers, scholars, and general readers need to understand the world's response to Yugoslavia's bloody collapse to build effective policies and prevent future wars in the Balkans. This new edition of *Balkan Ghosts* includes six
